Click on "Cigna Telehealth Connection".

4. Connect to a Doctor

Click on "Connect using a video or phone".

How to Use Medical Telehealth Services

Via Phone

Step 1: Call toll-free
Employee calls toll-free hotline available 24/7/365 including holidays.
MDLIVE: 888.726.3171.

Step 2: Speak with a coordinator
A consultation coordinator locates the next available doctor and prepares employee for the consultation.

Step 3: Speak with the doctor
Once an available doctor is located, the system automatically calls and connects the doctor to the employee.

Via Video Conference

(i.e. Facetime/webcam, etc.)

Step 1: Visit website
Employee seamlessly accesses services with a single sign-on via myCigna.com or visits each vendor's website and mobile app directly.

Step 2: Find a doctor
System helps the employee search for a doctor by a criterion, such as specialty, language, gender, location, or simply finds the next available doctor.

Step 3: See the doctor online
Once an available doctor is located, the system automatically connects the doctor to the patient through video.

Post-Visit

Email communication
Employee can elect for consultation history to be sent a personal doctor.

Prescription services
MDLIVE doctors may prescribe medication when appropriate and send the prescription directly to their pharmacy. *

**MDLIVE cannot guarantee that a prescription will be written. Not all prescriptions are available.*

Note:

- All major credit/debit cards are accepted as forms of payment.
- Your visit will tie in to your deductible and out-of-pocket max for the plan year.
- Translation services are available by phone and web. TTY/TDD service: Call 711 then enter 800-770-5531.
