INVITATION

BorgWarner Arctic Drive 2023

**February 27 – March 10, 2023,
BorgWarner Facility in Arjeplog, Sweden**

With the annual Arctic Drive we continue a long tradition of offering a customized event. You will have the opportunity to see and experience the latest BorgWarner Intelligent Propulsion developments in a demanding setting.

Product highlights are: Innovations to customize and optimize EV Propulsion through Intelligent Torque Management, systems such as Torque Vectoring (eTVD, eTV), eCross Drives (eXD), complemented by vehicle level control software and calibration. In addition, our State-of-the-art battery systems as well as 800V solutions including eMotors and the latest generation of Inverters will be on display.

CONTACT US TO BOOK YOUR PARTICIPATION.

We are looking forward to receiving your confirmation in order to tailor the event to your specific needs and interests. Feel free to share this invitation with anybody this event may be of interest to.

In addition, we would like to invite you to our evening dinner event on either March 2 or 9, 2023. You will have the opportunity to share impressions, socialize and engage in informal discussions with our experts.

To register, please contact your responsible BorgWarner Sales Manager or get in touch with our Sales Coordinator Jeanette Rålin by **December 15, 2022**. Further details will be shared once we get closer to the event.
