REMAN EGR
REMAN AGR

As good as new: REMAN EGR valves

BorgWarner has an excellent reputation as a reliable partner for the development of components required by the automotive industry. The company's exhaust gas recirculation valves improve fuel economy, reduce emissions of passenger cars and commercial vehicles. BorgWarner can also provide innovative solutions when specific parts have to be replaced.

BorgWarner's professionally remanufactured EGR valves close the gap between a brand new product and a reproduction of dubious quality.

So gut wie neu: REMAN AGR-Ventile

BorgWarner hat einen exzellenten Ruf als leistungsfähiger und zuverlässiger Entwicklungspartner der Automobilindustrie. Unsere Abgasrückführventile senken Kraftstoffverbrauch und Abgasemissionen von PKW- und Nutzfahrzeugmotoren. Wir haben innovative Lösungen parat, wenn Sie Ersatz für spezifische Teile suchen.

Unsere professionell wiederaufbereiteten AGR-Ventile schließen die Lücke zwischen einem brandneuen Produkt und einer Kopie mit zweifelhafter Qualität.
