

Transport Refrigeration & Auxiliary Power Unit **Starters & Alternators**

TESTED AND MANUFACTURED TO
OE QUALITY SPECIFICATION STANDARDS

- **Endurance** – Life cycle testing is performed on starters and alternators to ensure product reliability.
- **Performance** – Starters & Alternators are tested against established OE performance specifications to assure compatibility.
- **Temperature** – Starters are tested to ensure engagement in high heat conditions.
- **Continuous Improvement Practices** – A complete analysis is performed on key components to identify and drive the implementation of design changes for enhanced durability and performance.
