

UNITED STATES SECURITIES AND EXCHANGE COMMISSION  
Washington D.C. 20549

**FORM 10-Q**

**QUARTERLY REPORT**

(Mark One)

- Quarterly Report Pursuant to Section 13 or 15(d) of the Securities Exchange Act of 1934**  
**For the quarterly period ended June 30, 2021**

OR

- Transition Report Pursuant to Section 13 or 15(d) of the Securities Exchange Act of 1934**  
**For the transition period from \_\_\_\_\_ to \_\_\_\_\_**

Commission file number: 1-12162

**BORGWARNER INC.**

\_\_\_\_\_  
(Exact name of registrant as specified in its charter)

Delaware	13-3404508
_____ (State or other jurisdiction of Incorporation or organization)	_____ (I.R.S. Employer Identification No.)
3850 Hamlin Road, Auburn Hills, Michigan	48326
_____ (Address of principal executive offices)	_____ (Zip Code)

Registrant's telephone number, including area code: (248) 754-9200

Securities registered pursuant to Section 12(b) of the Act:

Title of each class	Trading Symbol(s)	Name of each exchange on which registered
Common Stock, par value \$0.01 per share	BWA	New York Stock Exchange
1.00% Senior Notes due 2031	BWA31	New York Stock Exchange

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes  No

Indicate by check mark whether the registrant has submitted electronically every Interactive Data File required to be submitted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit such files). Yes  No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, a smaller reporting company, or an emerging growth company. See the definitions of "large accelerated filer," "accelerated filer," "smaller reporting company," and "emerging growth company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer  Accelerated filer  Non-accelerated filer  Smaller reporting company   
Emerging growth company

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act.

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes  No

As of July 30, 2021, the registrant had 239,790,175 shares of voting common stock outstanding.

## CAUTIONARY STATEMENTS FOR FORWARD-LOOKING STATEMENTS

Statements in this Quarterly Report on Form 10-Q (“Form 10-Q”) (including Management’s Discussion and Analysis of Financial Condition and Results of Operations) may constitute forward-looking statements as contemplated by the 1995 Private Securities Litigation Reform Act (the “Act”) that are based on management’s current outlook, expectations, estimates and projections. Words such as “anticipates,” “believes,” “continues,” “could,” “designed,” “effect,” “estimates,” “evaluates,” “expects,” “forecasts,” “goal,” “guidance,” “initiative,” “intends,” “may,” “outlook,” “plans,” “potential,” “predicts,” “project,” “pursue,” “seek,” “should,” “target,” “when,” “will,” “would,” and variations of such words and similar expressions are intended to identify such forward-looking statements. Further, all statements, other than statements of historical fact contained or incorporated by reference in this Form 10-Q, that we expect or anticipate will or may occur in the future regarding our financial position, business strategy and measures to implement that strategy, including changes to operations, competitive strengths, goals, expansion and growth of our business and operations, plans, references to future success and other such matters, are forward-looking statements. Accounting estimates, such as those described under the heading “Critical Accounting Policies and Estimates” in Item 7 of our Annual Report on Form 10-K for the year ended December 31, 2020 (“Form 10-K”), are inherently forward-looking. All forward-looking statements are based on assumptions and analyses made by us in light of our experience and our perception of historical trends, current conditions and expected future developments, as well as other factors we believe are appropriate under the circumstances. Forward-looking statements are not guarantees of performance, and the Company’s actual results may differ materially from those expressed, projected, or implied in or by the forward-looking statements.

You should not place undue reliance on these forward-looking statements, which speak only as of the date of this Form 10-Q. Forward-looking statements are subject to risks and uncertainties, many of which are difficult to predict and generally beyond our control, that could cause actual results to differ materially from those expressed, projected or implied in or by the forward-looking statements. These risks and uncertainties, among others, include: the difficulty in forecasting demand for electric vehicles and our EV revenue growth to 2030; the ability to identify targets and consummate acquisitions on acceptable terms; failure to realize the expected benefits of acquisitions; the ability to identify appropriate combustion portfolio businesses for disposition and consummate planned dispositions on acceptable terms; competitive challenges from existing and new competitors including original equipment manufacturer (“OEM”) customers; the challenges associated with rapidly-changing technologies, particularly as relates to electric vehicles, and our ability to innovate in response; uncertainties regarding the extent and duration of impacts of matters associated with the COVID-19/coronavirus pandemic (“COVID-19”), including additional production disruptions; the failure to realize the expected benefits of the acquisition of Delphi Technologies PLC that the Company completed on October 1, 2020; the failure to realize the expected benefits of the acquisition of AKASOL AG (“AKASOL”) that the Company completed on June 4, 2021 or a delay in the ability to realize those benefits; the failure to successfully execute on a timely basis our taking private strategy with respect to AKASOL; the failure to promptly and effectively integrate acquired businesses; the potential for unknown or inestimable liabilities relating to acquired businesses; our dependence on automotive and truck production, both of which are highly cyclical and subject to disruptions; our reliance on major OEM customers; commodities availability and pricing; supply disruptions impacting the Company or the Company’s customers, such as the current shortage of semi-conductors that has impacted OEM customers and the Company; fluctuations in interest rates and foreign currency exchange rates; availability of credit; our dependence on key management; our dependence on information systems; the uncertainty of the global economic environment; the outcome of existing or any future legal proceedings, including litigation with respect to various claims; future changes in laws and regulations, including, by way of example, tariffs, in the countries in which we operate; impacts from any potential future acquisition or divestiture transactions; and the other risks, including, by way of example, pandemics and quarantines, noted in reports that we file with the Securities and Exchange Commission, including Item 1A, “Risk Factors” in our most recently-filed Form 10-K as updated by Item 1A of this report. We do not undertake any obligation to update or announce publicly any updates to or revisions to any of the forward-looking statements in this Form 10-Q to reflect any change in our

expectations or any change in events, conditions, circumstances, or assumptions underlying the statements.

This section and the discussions contained in Item 1A, “Risk Factors,” and in Item 7, subheading “Critical Accounting Policies and Estimates” in our most recently-filed Form 10-K are intended to provide meaningful cautionary statements for purposes of the safe harbor provisions of the Act. This should not be construed as a complete list of all of the economic, competitive, governmental, technological and other factors that could adversely affect our expected consolidated financial position, results of operations or liquidity. Additional risks and uncertainties, including without limitation those not currently known to us or that we currently believe are immaterial, also may impair our business, operations, liquidity, financial condition and prospects.

### ***Use of Non-GAAP Financial Measures***

In addition to results presented in accordance with accounting principles generally accepted in the United States of America (“GAAP”), this report includes non-GAAP financial measures. The Company believes these non-GAAP financial measures provide additional information that is useful to investors in understanding the underlying performance and trends of the Company. Readers should be aware that non-GAAP financial measures have inherent limitations and should be cautious with respect to the use of such measures. To compensate for these limitations, we use non-GAAP measures as comparative tools, together with GAAP measures, to assist in the evaluation of our operating performance or financial condition. We ensure that these measures are calculated using the appropriate GAAP components in their entirety and that they are computed in a manner intended to facilitate consistent period-to-period comparisons. The Company's method of calculating these non-GAAP measures may differ from methods used by other companies. These non-GAAP measures should not be considered in isolation or as a substitute for those financial measures prepared in accordance with GAAP. Where non-GAAP financial measures are used, the most directly comparable GAAP or regulatory financial measure, as well as the reconciliation to the most directly comparable GAAP financial measure, can be found in this report.

**BORGWARNER INC. AND CONSOLIDATED SUBSIDIARIES**  
**NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS**  
**(UNAUDITED)**

**NOTE 1 BASIS OF PRESENTATION**

The accompanying unaudited Condensed Consolidated Financial Statements of BorgWarner Inc. and Consolidated Subsidiaries (the “Company”) have been prepared in accordance with accounting principles generally accepted in the United States of America (“GAAP”) for interim financial information and with the instructions to Form 10-Q and Rule 10-01 of Regulation S-X. Accordingly, they do not include all of the information and footnotes necessary for a comprehensive presentation of financial position, results of operations and cash flow activity required by GAAP for complete financial statements. In the opinion of management, all normal recurring adjustments necessary for a fair statement of results have been included. Certain prior period amounts have been reclassified to conform to the current period presentation. Operating results for the three and six months ended June 30, 2021 are not necessarily indicative of the results that may be expected for the year ending December 31, 2021. The balance sheet as of December 31, 2020 was derived from the audited financial statements as of that date. For further information, refer to the Consolidated Financial Statements and Footnotes thereto included in the Company’s Annual Report on Form 10-K for the year ended December 31, 2020.

Management makes estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities as of the date of the financial statements and accompanying notes, as well as the amounts of revenues and expenses reported during the periods covered by those financial statements and accompanying notes. Actual results could differ from these estimates.

**COVID-19 Pandemic Update**

Throughout 2020, COVID-19 materially impacted the Company’s business and results of operations. During the first quarter of 2020, the impact of COVID-19 was initially experienced primarily by operations in China. Following the declaration of COVID-19 as a global pandemic on March 11, 2020, government authorities around the world began to impose shelter-in-place orders and other restrictions. As a result, many OEMs began suspending manufacturing operations, particularly in North America and Europe. This led to various temporary closures of, or reduced operations at, the Company’s manufacturing facilities, late in the first quarter of 2020 and throughout the second quarter of 2020.

During the second half of 2020, as global management of COVID-19 evolved and government restrictions were removed or lessened, production levels improved, and substantially all of the Company’s production facilities resumed closer to normal operations by the end of the third quarter of 2020. It is possible a resurgence of the COVID-19 pandemic could result in adverse impacts in the future. Management cannot reasonably estimate the full impact the COVID-19 pandemic could have on the Company’s financial condition, results of operations or cash flows in the future.

## **NOTE 2 NEW ACCOUNTING PRONOUNCEMENTS**

In January 2020, the FASB issued Accounting Standards Update (“ASU”) No. 2020-1, “Investments - Equity Securities (Topic 321), Investments - Equity Method and Joint Ventures (Topic 323), and Derivatives and Hedging (Topic 815).” It clarifies the interaction among the accounting for equity securities, equity method investments, and certain derivative instruments. Specifically, for the purposes of applying the ASC Topic 321 measurement alternative, a company should consider observable transactions immediately before applying or upon discontinuing the equity method. Additionally, when determining the accounting for certain forward contracts and purchased options entered into to purchase securities, a company should not consider if the underlying securities would be accounted for under the equity method (ASC Topic 323) or fair value option (ASC Topic 825). This guidance was effective for interim and annual periods beginning after December 15, 2020. The Company adopted this guidance as of January 1, 2021, and there was no impact on its Consolidated Financial Statements.

In December 2019, the FASB issued ASU No. 2019-12, “Income Taxes (Topic 740) - Simplifying the Accounting for Income Taxes.” It removes certain exceptions to the general principles in ASC Topic 740 and improves consistent application of and simplifies GAAP for other areas of ASC Topic 740 by clarifying and amending existing guidance. This guidance was effective for interim and annual reporting periods beginning after December 15, 2020. The Company adopted this guidance as of January 1, 2021, and the impact on its Consolidated Financial Statements was immaterial.

In August 2018, the FASB issued ASU No. 2018-14, “Compensation - Retirement Benefits - Defined Benefit Plans - General (Subtopic 715-20).” It (i) requires the removal of disclosures that are no longer considered cost beneficial; (ii) clarifies specific requirements of certain disclosures; and (iii) adds new disclosure requirements, including the weighted average interest crediting rates for cash balance plans and other plans with promised interest crediting rates, and reasons for significant gains and losses related to changes in the benefit obligation. This guidance was effective for annual periods beginning after December 15, 2020. The Company adopted this guidance as of January 1, 2021, and there was no impact on these Condensed Consolidated Financial Statements; however, the Company will include the annual disclosures as required in its Annual Report on Form 10-K.

## **NOTE 3 ACQUISITIONS**

### **AKASOL AG**

On June 4, 2021, the Company completed its voluntary public takeover offer for shares of AKASOL AG (“AKASOL”), resulting in ownership of 89% of AKASOL’s outstanding shares. The Company paid approximately €648 million (\$788 million) to settle the offer from current cash balances, which included proceeds received from its previously announced public offering of 1.00% Senior Notes due 2031 completed on May 19, 2021. Refer to Note 13, “Notes Payable And Debt,” to the Condensed Consolidated Financial Statements for more information. Following the settlement of the offer, AKASOL became a consolidated majority-owned subsidiary of the Company. Subsequent to the completion of the voluntary public takeover offer, and through June 30, 2021, the Company purchased additional shares of AKASOL for €28 million (\$33 million) increasing its ownership to 93% as of that date. Upon closing, the Company also consolidated approximately €64 million (\$77 million) of gross debt of AKASOL. The acquisition further strengthens BorgWarner’s commercial vehicle and industrial electrification capabilities, which positions the Company to capitalize on what it believes to be a fast-growing battery pack market.

The purchase price was allocated on a provisional basis as of June 4, 2021. Assets acquired and liabilities assumed were recorded at estimated fair values based on management’s preliminary estimates, available information, and supportable assumptions that management considered reasonable. Certain estimated values for the acquisition, including goodwill, tangible and intangible assets and deferred taxes are not yet finalized, and the provisional purchase price allocations are subject to change as the Company completes its analysis of the fair value at the date of acquisition. The final valuation of assets acquired and liabilities assumed may be materially different from the estimated values shown below.

The following table summarizes the estimated fair values of assets acquired and liabilities assumed as of June 4, 2021, the acquisition date:

(in millions)	Initial Allocation
<b>ASSETS</b>	
Cash and cash equivalents (including restricted cash of \$16 million)	\$ 29
Receivables, net	16
Inventories, net	42
Prepayments and other current assets	5
Property, plant and equipment, net	106
Goodwill	707
Other intangible assets, net	130
Total assets acquired	1,035
<b>LIABILITIES</b>	
Notes payable and other short-term debt	8
Accounts payable	22
Other current liabilities	13
Long-term debt	69
Other non-current liabilities	39
Total liabilities assumed	151
Noncontrolling interest	96
Net assets and noncontrolling interest acquired	\$ 788

Any excess of the purchase price over the estimated fair value of net assets was recognized as goodwill. At the acquisition date, goodwill of \$707 million was recorded within the Company's Air Management segment. The goodwill consists of the Company's expected future economic benefits that will arise from acquiring this business, which is established in making next-generation products for electric vehicles and the potential development and deployment of future technologies, across a global customer base, in this market and across adjacent industries. The goodwill is not expected to be deductible for tax purposes.

In connection with the acquisition, the Company preliminarily recorded \$130 million for intangible assets, primarily for developed technology and customer relationships. Various valuation techniques were used to determine the provisional fair value of intangible assets, with the primary techniques being forms of the income approach, specifically the relief-from-royalty and multi-period excess earnings valuation methods. Under these valuation approaches, the Company is required to make estimates and assumptions from a market participant perspective and include revenue growth rates, estimated earnings, royalty rates, obsolescence factors, contributory asset charges, customer attrition and discount rates. Management used a third-party valuation firm to assist in the determination of the provisional purchase accounting fair values; however, management ultimately oversees the third-party valuation firm to ensure that the transaction-specific assumptions are appropriate for the Company.

The impact of the AKASOL acquisition on net sales and net earnings was immaterial for the three and six months ended June 30, 2021. Due to its insignificant size relative to the Company, supplemental pro forma financial information of the combined entity for the current and prior reporting period is not provided.

## **Delphi Technologies PLC**

On October 1, 2020, the Company completed its acquisition of 100% of the outstanding ordinary shares of Delphi Technologies PLC ("Delphi Technologies") from the shareholders of Delphi Technologies pursuant to the terms of the Transaction Agreement, dated January 28, 2020, as amended on May 6,

2020, by and between the Company and Delphi Technologies (the “Transaction Agreement”). Pursuant to the terms of the Transaction Agreement, the Company issued, in exchange for each Delphi Technologies share, 0.4307 of a share of common stock of the Company, par value \$0.01 per share and cash in lieu of any fractional share. In the aggregate, the Company delivered consideration of approximately \$2.4 billion. The acquisition strengthens the Company’s electronics and power electronics products, capabilities and scale, positions the Company for greater growth as electrified propulsion systems gain momentum and enhances key combustion, commercial vehicle and aftermarket product offerings. Upon closing, the Company also assumed approximately \$800 million (par value) in aggregate principal amount of Delphi Technologies’ outstanding 5.000% Senior Notes due 2025 (the “DT Notes”).

On October 5, 2020, the Company completed its offer to exchange new BorgWarner notes for the DT Notes. Approximately \$776 million in aggregate principal amount of outstanding DT Notes, representing 97% of the \$800 million total outstanding principal amount of the DT Notes, were validly exchanged and cancelled for new BorgWarner notes. Following such cancellation, approximately \$24 million in aggregate principal amount of the DT Notes remain outstanding. Since the majority of the DT Notes were exchanged, the Company was able to eliminate substantially all of the restrictive covenants and events of default not related to payment on the \$800 million in outstanding senior notes of the Company.

The following table summarizes the purchase price for Delphi Technologies:

*(in millions, except for share data)*

BorgWarner common stock issued for purchase of Delphi Technologies		37,188,819
BorgWarner share price at October 1, 2020	\$	39.54
Fair value of stock consideration	\$	1,470
Stock compensation consideration		7
Total stock consideration	\$	1,477
Cash consideration		18
Repayment of Delphi Technologies’ debt		896
Total consideration	\$	2,391

The purchase price was allocated on a preliminary basis as of October 1, 2020. Assets acquired and liabilities assumed were recorded at estimated fair values based on management’s estimates, available information, and supportable assumptions that management considered reasonable. The Company is in the process of finalizing all purchase accounting adjustments related to the Delphi Technologies acquisition. Certain estimated values for the acquisition, including goodwill, intangible assets and deferred taxes are not yet finalized, and the preliminary purchase price allocations are subject to change as the Company completes its analysis of the fair value at the date of acquisition. The final valuation of assets acquired and liabilities assumed may be materially different from the estimated values shown below.

The following table summarizes the estimated fair values of assets acquired and liabilities assumed as of the acquisition date and subsequent measurement period adjustments:

(in millions)	Initial Allocation	Measurement Period Adjustments	Revised Allocation
<b>ASSETS</b>			
Cash and cash equivalents	\$ 460	\$ —	\$ 460
Receivables, net	901	(3)	898
Inventories, net	398	(3)	395

Noncontrolling interest	89	—	89
Net assets and noncontrolling interest acquired	\$ 2,391	\$ —	\$ 2,391

Any excess of the purchase price over the estimated fair value of net assets was recognized as goodwill. Goodwill of \$733 million, including the impact of measurement period adjustments, was allocated across the Company's four segments, as noted in the table below. The goodwill consists of the Company's expected future economic benefits that will arise from expected future product sales and operational synergies from combining Delphi Technologies with its existing business and is not deductible for tax purposes.

(in millions)	
Air Management	\$ 151
e-Propulsion & Drivetrain	284
Fuel Injection	—
Aftermarket	298
Total acquisition date goodwill	\$ 733

The valuation of intangible assets was determined using an income approach methodology. The fair values of the customer relationship intangible assets were estimated using the multi-period excess earnings method. Assumptions used in these calculations were considered from a market participant perspective and include revenue growth rates, estimated earnings, contributory asset charges, customer attrition and discount rates.

The fair values of the developed technology and trade name intangible assets were estimated utilizing the relief from royalty method, which calculates the cost savings associated with owning rather than licensing the assets. Assumed royalty rates are applied to projected revenue for the remaining useful lives of the assets to estimate the royalty savings. Assumptions used in the determination of the fair value of the developed technology included revenue growth rates, royalty rates, obsolescence factors and discount rates. Assumptions used in the determination of the fair value of the trade name included the revenue growth rates, the royalty rate and discount rate. The following table summarizes the other intangible assets acquired:

(in millions)	Estimated Life	Estimated Fair Value
<b>Amortized intangible assets:</b>		
Developed technology	14 years	\$ 270
Customer relationships	15 years	380
Total amortized intangible assets		650
Unamortized trade name	Indefinite	110
Total other intangible assets		<u>\$ 760</u>

Generally accepted valuation practice indicates that assets and liabilities may be valued using a range of methodologies. The property, plant and equipment and inventory acquired were valued using a combination of cost and market approaches. Goodwill, identifiable intangible assets, noncontrolling interests and the equity method investment were valued using the income approach. Management used a third-party valuation firm to assist in the determination of the preliminary purchase accounting fair values; however, management ultimately oversees the third-party valuation firm to ensure that the transaction-specific assumptions are appropriate for the Company.

On a pro forma basis, the combined net sales of the Company and Delphi Technologies for the three and six months ended June 30, 2020 were \$2,054 million and \$5,278 million, respectively.

### **Romeo Power, Inc.**

In May 2019, the Company invested \$50 million in exchange for a 20% equity interest in Romeo Systems, Inc., now known as Romeo Power, Inc., (“Romeo”) a technology-leading battery module and pack supplier that was then privately held. The Company accounted for this investment in Series A-1 Preferred Stock of Romeo under the measurement alternative in ASC Topic 321, “Investments - Equity Securities” for equity securities without a readily determinable fair value. Such investments are measured at cost, less any impairment, plus or minus changes resulting from observable price changes in orderly transactions for an identical or similar investment of the same issuer. In September 2019, the Company and Romeo contributed total equity of \$10 million and formed a new joint venture, BorgWarner Romeo Power LLC (“Romeo JV”), in which the Company owns a 60% interest. Romeo JV is a variable interest entity focusing on producing battery module and pack technology. The Company is the primary beneficiary of Romeo JV and consolidates Romeo JV in its consolidated financial statements.

On December 29, 2020, through the business combination of Romeo Systems, Inc. and special purpose acquisition company RMG Acquisition Corporation, a new entity, Romeo Power, Inc., became a publicly listed company. The Company’s ownership in Romeo was reduced to 14%, and the investment no longer qualified for the measurement alternative under ASC Topic 321 as the investment now has a readily

determinable fair value. Therefore, the investment is recorded at fair value on an ongoing basis with changes in fair value being recognized in Unrealized loss on equity securities in the Condensed Consolidated Statements of Operations. During the three and six months ended June 30, 2021, the Company recorded a loss of \$4 million and \$276 million, respectively, to adjust the carrying value of the Company's investment to fair value. As of June 30, 2021, the investment's fair value was \$156 million, which is reflected in Investments and other long-term receivables in the Company's Condensed Consolidated Balance Sheets.

During the six months ended June 30, 2020, after completing a qualitative assessment which indicated the Company's equity securities in Romeo may have been impaired, the Company recorded a \$9 million impairment charge to reflect this investment at its estimated fair value of \$41 million. The estimated fair value of Romeo was determined using unobservable inputs including quantitative information from lower valuations in recently completed or proposed financings and the liquidation preferences included in the Romeo stock agreements. These unobservable inputs are considered Level 3.

#### **NOTE 4 REVENUE FROM CONTRACTS WITH CUSTOMERS**

The Company manufactures and sells products, primarily to OEMs of light vehicles and, to a lesser extent, to other OEMs of commercial vehicles and off-highway vehicles, to certain Tier One vehicle systems suppliers and into the aftermarket. The Company's payment terms are based on customary business practices and vary by customer type and products offered. We have evaluated the terms of our arrangements and determined that they do not contain significant financing components.

Generally, revenue is recognized upon shipment or delivery; however, a limited number of the Company's customer arrangements for its highly customized products with no alternative use provide the Company with the right to payment during the production process. As a result, for these limited arrangements, revenue is recognized as goods are produced and control transfers to the customer using the input cost-to-cost method. The Company recorded a contract asset of \$22 million and \$16 million at June 30, 2021 and December 31, 2020, respectively, for these arrangements. These amounts are reflected in Prepayments and other current assets in the Company's Condensed Consolidated Balance Sheets.

In limited instances, certain customers have provided payments in advance of receiving related products, typically at the onset of an arrangement prior to the beginning of production. These contract liabilities are reflected as Other current liabilities and Other non-current liabilities in the Condensed Consolidated Balance Sheets and were \$16 million and \$1 million at June 30, 2021 and \$22 million and \$6 million at December 31, 2020, respectively. These amounts are reflected as revenue over the term of the arrangement (typically 3 to 7 years) as the underlying products are shipped and represent the Company's remaining performance obligations as of the end of the period.

Sales to certain aftermarket customers provide to the customers a right of return. The Company recognizes an estimated return asset (and adjusts for cost of sales) for the right to recover the products returned by the customer. ASC Topic 606 requires that return assets be presented separately from inventory. As of June 30, 2021 and December 31, 2020, the Company had return assets of \$8 million recorded in Prepayments and other current assets.

The Company continually seeks business development opportunities and at times provides customer incentives for new program awards. When the Company determines that the payments are incremental and incurred only if the new business is obtained and expects to recover these amounts from the customer over the term of the new business arrangement, the Company capitalizes these amounts. As of June 30, 2021 and December 31, 2020, the Company recorded customer incentive payments of \$43 million in Prepayments and other current assets, and \$148 million and \$166 million in Other non-current assets in the Condensed Consolidated Balance Sheets, respectively.

The following tables represent a disaggregation of revenue from contracts with customers by reporting segment and region and reflects the results of former Delphi Technologies entities in the three and six months ended June 30, 2021. Refer to Note 22, "Reporting Segments And Related Information," to the Condensed Consolidated Financial Statements for more information.

## NOTE 5 RESTRUCTURING

The Company's restructuring activities are undertaken, as necessary, to execute management's strategy and streamline operations, consolidate and take advantage of available capacity and resources, and ultimately achieve net cost reductions. Restructuring activities include efforts to integrate and rationalize the Company's business and to relocate operations to best cost locations.

The Company's restructuring expenses consist primarily of employee termination benefits (principally severance and/or termination benefits) and other costs, which are primarily professional fees and costs related to facility closures and exits.

(in millions)	Three Months Ended June 30, 2021				
	Air Management	e-Propulsion & Drivetrain	Fuel Injection	Corporate	Total

In February 2020, the Company announced a restructuring plan to address existing structural costs. During the three and six months ended June 30, 2021, the Company recorded \$37 million and \$61 million of restructuring charges related to this plan, respectively. During the three and six months ended June 30, 2020, the Company recorded \$37 million and \$52 million of restructuring charges related to this plan, respectively. Cumulatively, the Company has incurred \$209 million of restructuring charges related to this plan. This plan is expected to result in a total of \$300 million of restructuring costs through 2022. Nearly all of the restructuring charges associated with this plan are expected to be cash expenditures.

In 2019, legacy Delphi Technologies announced a restructuring plan to reshape and realign its global technical center footprint and reduce salaried and contract staff. The Company continued actions under this program post-acquisition and has recorded cumulative charges of \$33 million since October 1, 2020, including approximately \$31 million in restructuring charges during the six months ended June 30, 2021. Although a majority of the actions under this program have been completed, the Company does expect additional charges, which could be significant, for actions subject to negotiations with employee works council and other employee representatives.

During the three and six months ended June 30, 2021 and 2020, the Company incurred restructuring expenses primarily related to the following actions, related to the two plans discussed above:

### Air Management

- During the three and six months ended June 30, 2021, the segment recorded \$12 million and \$27 million of restructuring cost, respectively, primarily related to severance costs, professional fees and a voluntary termination program to reduce existing structural costs.
- During the six months ended June 30, 2021, the segment recorded \$2 million primarily related to severance costs under a legacy Delphi Technologies restructuring plan to realign its global technical center footprint and implement headcount reductions.

- During the three and six months ended June 30, 2020, the segment recorded \$16 million and \$29 million of restructuring costs, respectively, of which \$5 million and \$13 million related to a voluntary termination program where approximately 350 employees accepted termination packages and \$7 million and \$12 million related to severance costs and professional fees for specific actions to reduce structural costs. During the three and six months ended June 30, 2020, the segment also recorded \$3 million of employee termination benefits related to the announced closure of a facility in Europe affecting approximately 200 employees.

#### **e-Propulsion & Drivetrain**

- During the three and six months ended June 30, 2021, the segment recorded \$5 million and \$10 million, respectively, primarily related to severance costs, equipment relocation and professional fees to reduce existing structural costs. During the three and six months ended June 30, 2021, the segment recorded \$19 million and \$23 million related to contractual settlements, professional fees and other costs associated with the announced closure of a facility in Europe.
- During the three and six months ended June 30, 2020, the segment recorded \$3 million and \$5 million, respectively, primarily related to professional fees for actions to reduce structural costs and severance costs. During the three and six months ended June 30, 2020, the segment also recorded \$17 million of employee termination benefits related to the announced closure of a facility in Europe affecting approximately 350 employees.

#### **Fuel Injection**

- During the three and six months ended June 30, 2021, the segment recorded \$24 million and \$27 million, respectively, primarily related to severance costs under a legacy Delphi Technologies restructuring plan to realign its global technical center footprint and implement headcount reductions. These benefits are subject to negotiation with labor unions, which could result in additional restructuring expenses.

Estimates of restructuring expense are based on information available at the time such charges are recorded. Due to the inherent uncertainty involved in estimating restructuring expenses, actual amounts paid for such activities may differ from amounts initially recorded. Accordingly, the Company may record revisions of previous estimates by adjusting previously established accruals.

The Company continues to evaluate different options across its operations to reduce existing structural costs over the next few years. The Company will recognize restructuring expense associated with any future actions at the time they are approved and become probable or are incurred. Any future actions could result in significant restructuring expense.

#### **NOTE 6 RESEARCH AND DEVELOPMENT COSTS**

The Company's net Research & Development ("R&D") expenditures are included in selling, general and administrative expenses of the Condensed Consolidated Statements of Operations. Customer reimbursements are netted against gross R&D expenditures as they are considered a recovery of cost. Customer reimbursements for prototypes are recorded net of prototype costs based on customer contracts, typically either when the prototype is shipped or when it is accepted by the customer. Customer reimbursements for engineering services are recorded when performance obligations are satisfied in accordance with the contract. Financial risks and rewards transfer upon shipment, acceptance of a prototype component by the customer or upon completion of the performance obligation, as stated in the respective customer agreement. The Company has contracts with several customers relating to R&D activities that the Company performs at the Company's various R&D locations.

The following table presents the Company's gross and net expenditures on R&D activities:

(in millions)	Three Months Ended June 30,		Six Months Ended June 30,	
	2021	2020	2021	2020
Gross R&D expenditures	\$ 224	\$ 103	\$ 444	\$ 221
Customer reimbursements	(58)	(15)	(95)	(24)
Net R&D expenditures	\$ 166	\$ 88	\$ 349	\$ 197

## NOTE 7 OTHER OPERATING EXPENSE, NET

Items included in Other operating expense, net consist of:

(in millions)	Three Months Ended June 30,		Six Months Ended June 30,	
	2021	2020	2021	2020
Restructuring expense (Note 5)	\$ 62	\$ 37	\$ 92	\$ 52
Merger, acquisition and divestiture expense	15	21	28	42
Loss on sale	7	—	7	—
Asset impairments	—	17	—	17
Net gain on insurance recovery for property damage	—	(6)	(2)	(6)
Other income, net	(3)	(1)	(6)	(1)
Other operating expense, net	\$ 81	\$ 68	\$ 119	\$ 104

**Merger, acquisition and divestiture expense:** During the three months ended June 30, 2021, the Company recorded merger, acquisition and divestiture expense of \$15 million, primarily related to professional fees associated with the acquisition of AKASOL. During the six months ended June 30, 2021, the Company recorded merger, acquisition and divestiture expense of \$28 million, primarily related to professional fees for integration and other support associated with the Company's acquisition of Delphi Technologies completed on October 1, 2020 and the AKASOL acquisition. During the three and six months ended June 30, 2020, the Company recorded merger, acquisition and divestiture expense of \$21 million and \$42 million, respectively, primarily related to professional fees associated with the Company's acquisition of Delphi Technologies.

**Loss on sale:** During the three months ended June 30, 2021, the Company recorded a loss of \$7 million in connection with the sale of an e-Propulsion & Drivetrain technical center in Europe.

**Asset impairments:** During the three and six months ended June 30, 2020, the Company recorded asset impairment costs of \$9 million in the Air Management segment and \$8 million in the e-Propulsion & Drivetrain segment, related to the write down of property, plant and equipment associated with the announced closures of two European facilities.

**Net gain on insurance recovery for property damage:** During the six months ended June 30, 2021 and 2020, the Company recorded a \$2 million and \$6 million net gain, respectively, from insurance recovery proceeds, which primarily represents the amount received for replacement cost in excess of carrying value for losses sustained from a tornado that damaged the Company's plant in Seneca, South Carolina.

## NOTE 8 INCOME TAXES

The Company's provision for income taxes is based upon an estimated annual tax rate for the year applied to federal, state and foreign income. On a quarterly basis, the annual effective tax rate is adjusted, as appropriate, based upon changed facts and circumstances, if any, as compared to those forecasted at the beginning of the fiscal year and each interim period thereafter.

The Company's effective tax rate for the six months ended June 30, 2021 and 2020 was 16% and 45%, respectively. During the six-month period ended June 30, 2021, unrecognized tax benefits and accrued interest were decreased for the lapse of the statute of limitations in a non-US jurisdiction for a tax holiday matter which, net of unrecognized foreign tax credits, resulted in a \$55 million tax benefit. Additionally, an increase in the United Kingdom ("UK") tax rate from 19% to 25% effective April 1, 2023 was enacted in June 2021 resulting in a discrete tax benefit of \$20 million as a result of the revaluation of net deferred tax asset balances. Further, the Company's effective tax rate includes a net discrete tax benefit of \$24 million primarily related to changes to certain withholding rates applied to unremitted earnings. The 2020 rate was unfavorably impacted by \$94 million of restructuring expenses and merger, acquisition and divestiture expenses that were largely non-deductible for tax purposes, resulting in only \$9 million of tax benefit being recognized. This rate was further unfavorably impacted by \$26 million of asset impairment charges for which no tax benefit was recognized as full valuation allowances were recorded against the corresponding deferred tax assets. The Company also recorded reductions in income tax expense of \$10 million for other one-time adjustments primarily related to tax law changes in India that were enacted during the first three months of 2020 and the release of certain unrecognized tax benefits due to the closure of an audit.

The Company's effective tax rate for the three months ended June 30, 2021 and 2020 was 9% and 6%, respectively. During the three-month period ended June 30, 2021, unrecognized tax benefits and accrued interest were decreased for the lapse of the statute of limitations in a non-US jurisdiction for a tax holiday matter which, net of unrecognized foreign tax credits, resulted in a \$55 million tax benefit. Additionally, an increase in the UK tax rate from 19% to 25% effective April 1, 2023 was enacted in June 2021 resulting in a discrete tax benefit of \$20 million as a result of the revaluation of net deferred tax asset balances. The 2020 rate includes restructuring expenses, merger, acquisition and divestiture expenses, and asset impairment costs that are largely non-deductible for tax purposes. During the three months ended June 30, 2020, the Company recorded \$75 million of such expenses for which only a \$5 million tax benefit was recognized.

The annual effective tax rates differ from the U.S. statutory rate primarily due to foreign rates which vary from those in the U.S., jurisdictions with pretax losses for which no tax benefit could be realized, U.S. taxes on foreign earnings, the realization of certain business tax credits (including foreign tax credits), and permanent differences between book and tax treatment for certain items (including equity in affiliates' earnings).

## NOTE 9 INVENTORIES, NET

Other	74	60
Total other non-current assets	<u>\$ 748</u>	<u>\$ 728</u>

## NOTE 11 GOODWILL AND OTHER INTANGIBLES

During the fourth quarter of each year, the Company assesses its goodwill assigned to each of its reporting units. In addition, the Company may test goodwill in between annual test dates if an event occurs or circumstances change that could more-likely-than-not reduce the fair value of a reporting unit below its carrying value. No events or circumstances were noted in the first half of 2021 requiring additional assessment or testing. Future changes in the judgments, assumptions and estimates from those used in acquisition-related valuations and goodwill impairment testing, including discount rates or future operating results and related cash flow projections, could result in significantly different estimates of the fair values in the future. An increase in discount rates, a reduction in projected cash flows or a combination of the two could lead to a reduction in the estimated fair values, which may result in impairment charges that could materially affect the Company's financial statements in any given year.

A summary of the changes in the carrying amount of goodwill are as follows:

(in millions)	Air Management	e-Propulsion & Drivetrain	Aftermarket	Total
Gross goodwill balance, December 31, 2020	\$ 1,517	\$ 1,313	\$ 299	\$ 3,129
Accumulated impairment losses, December 31, 2020	(502)	—	—	(502)

Unamortized trade names		166	—	166	166	—	166
Total other intangible assets		<u>\$ 1,557</u>	<u>\$ 385</u>	<u>\$ 1,172</u>	<u>\$ 1,452</u>	<u>\$ 356</u>	<u>\$ 1,096</u>

## NOTE 12 PRODUCT WARRANTY

The Company provides warranties on some, but not all, of its products. The warranty terms are typically from one to three years. Provisions for estimated expenses related to product warranty are made at the time products are sold. These estimates are established using historical information about the nature, frequency and average cost of warranty claim settlements as well as product manufacturing and industry developments and recoveries from third parties. Management actively studies trends of warranty claims and takes action to improve product quality and minimize warranty claims. Management believes that the warranty accrual is appropriate; however, actual claims incurred could differ from the original estimates, requiring adjustments to the accrual. The product warranty accrual is allocated to current and non-current liabilities in the Condensed Consolidated Balance Sheets.

The following table summarizes the activity in the product warranty accrual accounts:

(in millions)	2021	2020
Beginning balance, January 1	\$ 253	\$ 116
Provisions for current period sales	52	27
Adjustments of prior estimates	17	5
Payments	(73)	(28)
Translation adjustment	(3)	(1)
Ending balance, June 30	<u>\$ 246</u>	<u>\$ 119</u>

The product warranty liability is classified in the Condensed Consolidated Balance Sheets as follows:

(in millions)	June 30, 2021	December 31, 2020
Other current liabilities	\$ 137	\$ 164
Other non-current liabilities	109	89
Total product warranty liability	<u>\$ 246</u>	<u>\$ 253</u>

## NOTE 13 NOTES PAYABLE AND DEBT

As of June 30, 2021 and December 31, 2020, the Company had debt outstanding as follows:

(in millions)	June 30, 2021	December 31, 2020
Short-term borrowings	\$ 1	\$ 45
<u>Long-term debt</u>		
1.800% Senior notes due 11/07/22 (€500 million par value)	—	609
3.375% Senior notes due 03/15/25 (\$500 million par value)	498	498
5.000% Senior notes due 03/15/25 (\$800 million par value)*	901	912
2.650% Senior notes due 07/01/27 (\$1,100 million par value)	1,089	1,088
7.125% Senior notes due 02/15/29 (\$121 million par value)	119	119
1.000% Senior Notes due 05/19/31 (€1,000 million par value)	1,164	—
4.375% Senior notes due 03/15/45 (\$500 million par value)	494	494
Term loan facilities, finance leases and other	95	22
Total long-term debt	4,360	3,742
Less: current portion	12	4
Long-term debt, net of current portion	\$ 4,348	\$ 3,738

\*Includes the fair value step-up from the Delphi Technologies acquisition, which was based on observable market data and will be amortized as a reduction to interest expense over the remaining life of the instrument using the effective interest method.

The Company may utilize uncommitted lines of credit for short-term working capital requirements. As of June 30, 2021 and December 31, 2020, the Company had \$1 million and \$45 million, respectively, in borrowings under these facilities, which are classified in Notes payable and short-term debt on the Condensed Consolidated Balance Sheets. During the three months ended June 30, 2021, the Company repaid \$46 million of existing short-term borrowings.

On May 19, 2021, in anticipation of the acquisition of AKASOL and to refinance the Company's €500 million 1.800% senior notes due in November 2022, the Company issued €1.0 billion in 1.000% senior notes due May 2031. Interest is payable annually in arrears on May 19 of each year. These senior notes are not guaranteed by any of the Company's subsidiaries. On June 18, 2021, the Company repaid its €500 million 1.800% senior notes due November 2022 and incurred a loss on debt extinguishment of \$20 million, which is reflected in Interest expense in the Condensed Consolidated Statement of Operations.

On February 19, 2021, the Company entered into a \$900 million, 364-day delayed draw term loan facility to satisfy certain cash confirmation requirements in support of the proposed acquisition of AKASOL. The facility was cancelled on May 19, 2021 in accordance with its terms, following the Company's issuance of the €1.0 billion in senior notes.

The Company has a \$2.0 billion multi-currency revolving credit facility which allows the Company the ability to increase the facility by \$1.0 billion with bank group approval. The credit agreement contains customary events of default and one key financial covenant, which is a debt-to-EBITDA (Earnings Before Interest, Taxes, Depreciation and Amortization) ratio. The Company was in compliance with the financial covenant at June 30, 2021. At June 30, 2021 and December 31, 2020, the Company had no outstanding borrowings under this facility.

The Company's commercial paper program allows the Company to issue up to \$2.0 billion of short-term, unsecured commercial paper notes under the limits of its multi-currency revolving credit facility. Under this program, the Company may issue notes from time to time and use the proceeds for general corporate purposes. The Company had no outstanding borrowings under this program as of June 30, 2021 and December 31, 2020.

The total current combined borrowing capacity under the multi-currency revolving credit facility and commercial paper program cannot exceed \$2 billion.

As of June 30, 2021 and December 31, 2020, the estimated fair values of the Company's senior unsecured notes totaled \$4,551 million and \$4,052 million, respectively. The estimated fair values were \$286 million higher than their carrying value at June 30, 2021 and \$332 million higher than their carrying value at December 31, 2020. Fair market values of the senior unsecured notes are developed using observable values for similar debt instruments, which are considered Level 2 inputs as defined by ASC Topic 820. The carrying values of the Company's multi-currency revolving credit facility and commercial paper program approximates fair value. The fair value estimates do not necessarily reflect the values the Company could realize in the current markets.

The Company had outstanding letters of credit of \$33 million at June 30, 2021 and December 31, 2020. The letters of credit typically act as guarantees of payment to certain third parties in accordance with specified terms and conditions.

## NOTE 14 OTHER CURRENT AND NON-CURRENT LIABILITIES

Additional detail related to liabilities is presented in the table below:

(in millions)	June 30, 2021	December 31, 2020
Other current liabilities:		
Payroll and employee related	\$ 318	\$ 301
Customer related	244	198
Product warranties (Note 12)	137	164
Income taxes payable	124	102
Employee termination benefits (Note 5)	97	101
Indirect taxes	69	69
Accrued freight	52	41
Operating leases	48	47
Dividends payable	39	6
Interest	32	18
Insurance	19	20
Retirement related	16	16
Contract liabilities (Note 4)	16	22
Other	271	304
Total other current liabilities	<u>\$ 1,482</u>	<u>\$ 1,409</u>
Other non-current liabilities:		
Deferred income taxes	\$ 264	\$ 276
Non-current income tax liabilities	248	300
Operating leases	168	172
Derivative instruments	121	162
Product warranties (Note 12)	109	89
Deferred income	63	55
Employee termination benefits (Note 5)	37	59
Other	80	68
Total other non-current liabilities	<u>\$ 1,090</u>	<u>\$ 1,181</u>

## NOTE 15 FAIR VALUE MEASUREMENTS

ASC Topic 820 emphasizes that fair value is a market-based measurement, not an entity-specific measurement. Therefore, a fair value measurement should be determined based on assumptions that market participants would use in pricing an asset or liability. As a basis for considering market participant assumptions in fair value measurements, ASC Topic 820 establishes a fair value hierarchy, which prioritizes the inputs used in measuring fair values as follows:

- Level 1: Observable inputs such as quoted prices for identical assets or liabilities in active markets;
- Level 2: Inputs, other than quoted prices in active markets, that are observable either directly or indirectly; and
- Level 3: Unobservable inputs for which there is little or no market data, which require the reporting entity to develop its own assumptions.

Assets and liabilities measured at fair value are based on one or more of the following three valuation techniques noted in ASC Topic 820:

- A. **Market approach:** Prices and other relevant information generated by market transactions involving identical or comparable assets, liabilities or a group of assets or liabilities, such as a business.
- B. **Cost approach:** Amount that would be required to replace the service capacity of an asset (replacement cost).
- C. **Income approach:** Techniques to convert future amounts to a single present amount based upon market expectations (including present value techniques, option-pricing and excess earnings models).

The following tables classify assets and liabilities measured at fair value on a recurring basis as of June 30, 2021 and December 31, 2020:

(in millions)	Balance at June 30, 2021	Basis of fair value measurements			Valuation technique
		Quoted prices in active markets for identical items (Level 1)	Significant other observable inputs (Level 2)	Significant unobservable inputs (Level 3)	
<b>Assets:</b>					
Investment in equity securities	\$ 156	\$ 156	\$ —	\$ —	A
Foreign currency contracts	\$ 16	\$ —	\$ 16	\$ —	A
Net investment hedge contracts	\$ 6	\$ —	\$ 6	\$ —	A
<b>Liabilities:</b>					
Foreign currency contracts	\$ 12	\$ —	\$ 12	\$ —	A
Net investment hedge contracts	\$ 120	\$ —	\$ 120	\$ —	A

(in millions)	Balance at December 31, 2020	Basis of fair value measurements			Valuation technique
		Quoted prices in active markets for identical items (Level 1)	Significant other observable inputs (Level 2)	Significant unobservable inputs (Level 3)	
<b>Assets:</b>					
Investment in equity securities	\$ 432	\$ 432	\$ —	\$ —	A
Foreign currency contracts	\$ 5	\$ —	\$ 5	\$ —	A
<b>Liabilities:</b>					
Foreign currency contracts	\$ 6	\$ —	\$ 6	\$ —	A
Net investment hedge contracts	\$ 161	\$ —	\$ 161	\$ —	A

## NOTE 16 FINANCIAL INSTRUMENTS

The Company's financial instruments include cash and cash equivalents, marketable securities and accounts receivable. Due to the short-term nature of these instruments, their book value approximates their fair value. The Company's financial instruments may also include long-term debt, investments in equity securities, interest rate and cross-currency swaps, commodity derivative contracts and foreign currency derivative contracts. All derivative contracts are placed with counterparties that have an S&P, or equivalent, investment grade credit rating at the time of the contracts' placement. At June 30, 2021 and December 31, 2020, the Company had no derivative contracts that contained credit risk-related contingent features.

The Company, at times, uses certain commodity derivative contracts to protect against commodity price changes related to forecasted raw material and component purchases. At June 30, 2021 and December 31, 2020, the Company had no material commodity derivative contracts. The Company primarily utilizes forward and option contracts, which are designated as cash flow hedges.

The Company manages its interest rate risk by balancing its exposure to fixed and variable rates while attempting to optimize its interest costs. The Company, at times, selectively uses interest rate swaps and options to reduce market value risk associated with changes in interest rates (fair value hedges and cash flow hedges). At June 30, 2021 and December 31, 2020, the Company had no outstanding interest rate swaps or options.

The Company uses foreign currency forward and option contracts to protect against exchange rate movements for forecasted cash flows, including capital expenditures, purchases, operating expenses or sales transactions designated in currencies other than the functional currency of the operating unit. In addition, the Company uses foreign currency forward contracts to hedge exposure associated with its net investment in certain foreign operations (net investment hedges). During the three months ended June 30, 2021, the Company repaid its €500 million 1.800% senior notes due November 2022, which was designated as a net investment hedge resulting in a deferred loss of \$50 million that will remain in accumulated other comprehensive loss until the net investment is sold, completely liquidated or substantially liquidated. The Company has designated the €1.0 billion in 1.000% senior notes due May 2031, issued in May 2021, as a net investment hedge of the Company's investment in its European subsidiaries. Foreign currency derivative contracts require the Company, at a future date, to either buy or sell foreign currency in exchange for the operating units' local currency. At June 30, 2021 and December 31, 2020, the following foreign currency derivative contracts were outstanding:

Foreign currency derivatives (in millions)*				
Functional Currency	Traded Currency	Notional in traded currency June 30, 2021	Notional in traded currency December 31, 2020	Ending Duration
British pound	Euro	99	97	Dec - 22
Chinese renminbi	US dollar	113	113	Dec - 22
Chinese renminbi	Euro	28	—	Dec - 21
Euro	Chinese renminbi	218	—	Dec - 21
Euro	Hungarian forint	4,322	—	Dec - 21
Euro	Polish zloty	291	147	Dec - 22
Euro	Swedish krona	120	—	Dec - 21
Euro	Korean won	14,000	—	Nov - 21
Euro	US dollar	61	41	Dec - 22
Indian rupee	US dollar	14	—	Dec - 21
Korean won	US dollar	23	19	Dec - 21
US dollar	British pound	11	—	Dec - 22
US dollar	Euro	27	55	Oct - 21
US dollar	Korean won	102,119	15,000	Dec - 22
US dollar	Singapore dollar	41	47	Dec - 22
US dollar	Thailand baht	1,720	—	May - 22
US dollar	Mexican peso	1,672	1,178	Dec - 22

\*Table above excludes non-significant traded currency pairings with total notional amounts less than \$10 million U.S. dollar equivalent as of June 30, 2021 and December 31, 2020.

The Company selectively uses cross-currency swaps to hedge the foreign currency exposure associated with its net investment in certain foreign operations (net investment hedges). At June 30, 2021 and December 31, 2020, the following cross-currency swap contracts were outstanding:

(millions of dollars)	Cross-currency swaps				
	June 30, 2021		December 31, 2020		Ending duration
US dollar to Euro:					
Fixed receiving notional	\$	500	\$	500	Mar - 25
Fixed paying notional	€	450	€	450	Mar - 25
US dollar to Euro:					
Fixed receiving notional	\$	1,100	\$	1,100	Jul - 27
Fixed paying notional	€	976	€	976	Jul - 27
US dollar to Japanese yen:					
Fixed receiving notional	\$	100	\$	100	Feb - 23
Fixed paying notional	¥	10,798	¥	10,978	Feb - 23

At June 30, 2021 and December 31, 2020, the following amounts were recorded in the Condensed Consolidated Balance Sheets as being payable to or receivable from counterparties under ASC Topic 815:

(in millions)	Assets				Liabilities			
	Location	June 30, 2021	December 31, 2020	Location	June 30, 2021	December 31, 2020		
Derivatives designated as hedging instruments Under 815:								
Foreign currency	Prepayments and other current assets	\$ 7	\$ 1	Other current liabilities	\$ 10	\$ 4		
Foreign currency	Other non-current assets	\$ 1	\$ —	Other non-current liabilities	\$ 1	\$ 1		
Net investment hedges	Other non-current assets	\$ 6	\$ —	Other non-current liabilities	\$ 120	\$ 161		
Derivatives not designated as hedging instruments:								
Foreign currency	Prepayments and other current assets	\$ 7	\$ 4	Other current liabilities	\$ 1	\$ 1		
Foreign currency	Other non-current assets	\$ 1	\$ —	Other non-current liabilities	\$ —	\$ —		

Effectiveness for cash flow hedges is assessed at the inception of the hedging relationship and quarterly, thereafter. Gains and losses arising from these contracts that are included in the assessment of effectiveness are deferred into accumulated other comprehensive loss (“AOCI”) and reclassified into income as the underlying operating transactions are recognized. These realized gains or losses offset the hedged transaction and are recorded on the same line in the statement of operations. The initial value of any component excluded from the assessment of effectiveness will be recognized in income using a systematic and rational method over the life of the hedging instrument. Any difference between the change in fair value of the excluded component and amounts recognized in income under that systematic and rational method will be recognized in AOCI.

Effectiveness for net investment hedges is assessed at the inception of the hedging relationship and quarterly, thereafter. Gains and losses arising from these contracts that are included in the assessment of effectiveness are deferred into foreign currency translation adjustments and only released when the subsidiary being hedged is sold or substantially liquidated. The initial value of any component excluded from the assessment of effectiveness will be recognized in income using a systematic and rational method over the life of the hedging instrument. Any difference between the change in fair value of the

excluded component and amounts recognized in income under that systematic and rational method will be recognized in AOCI.

The table below shows deferred gains (losses) reported in AOCI as well as the amount expected to be reclassified to income in one year or less for designated net investment hedges. The amount expected to be reclassified to income in one year or less assumes no change in the current relationship of the hedged item at June 30, 2021 market rates.

(in millions) Contract Type	Deferred gain (loss) in AOCI at		Gain (loss) expected to be reclassified to income in one year or less
	June 30, 2021	December 31, 2020	
<b>Net investment hedges:</b>			
Foreign currency	\$ (7)	\$ (1)	\$ —
Cross-currency swaps	(114)	(161)	—
Foreign currency-denominated debt	19	(68)	—
<b>Total</b>	<b>\$ (102)</b>	<b>\$ (230)</b>	<b>\$ —</b>

Derivative instruments designated as hedging instruments as defined by ASC Topic 815 held during the period resulted in the following gains and losses recorded in income:

(in millions)	Three Months Ended June 30, 2021			
	Net sales	Cost of sales	Selling, general and administrative expenses	Other comprehensive income (loss)
Total amounts of earnings and other comprehensive income(loss) line items in which the effects of cash flow hedges are recorded	\$ 3,758	\$ 2,996	\$ 364	\$ 63

Gain (loss) on cash flow hedging relationships:

Foreign currency:				
Gain (loss) recognized in other comprehensive income				\$ 3
Gain (loss) reclassified from AOCI to income	\$ —	\$ 1	\$ —	

(in millions)	Six Months Ended June 30, 2021			
	Net sales	Cost of sales	Selling, general and administrative expenses	Other comprehensive income (loss)
Total amounts of earnings and other comprehensive income(loss) line items in which the effects of cash flow hedges are recorded	7,767	6,187	741	\$ (22)

Gain (loss) on cash flow hedging relationships:

Foreign currency:				
Gain (loss) recognized in other comprehensive income				\$ (3)
Gain (loss) reclassified from AOCI to income	\$ —	\$ 1	\$ —	

(in millions)	Three Months Ended June 30, 2020			
	Net sales	Cost of sales	Selling, general and administrative expenses	Other comprehensive income (loss)
Total amounts of earnings and other comprehensive income(loss) line items in which the effects of cash flow hedges are recorded	\$ 1,426	\$ 1,252	\$ 184	\$ 14
<u>Gain (loss) on cash flow hedging relationships:</u>				
Foreign currency:				
Gain (loss) recognized in other comprehensive income				\$ 1

(in millions)	Six Months Ended June 30, 2020			
	Net sales	Cost of sales	Selling, general and administrative expenses	Other comprehensive income (loss)
Total amounts of earnings and other comprehensive income(loss) line items in which the effects of cash flow hedges are recorded	\$ 3,705	\$ 3,084	\$ 397	\$ (60)
<u>Gain (loss) on cash flow hedging relationships:</u>				
Foreign currency:				
Gain (loss) recognized in other comprehensive income				\$ (2)
Gain (loss) reclassified from AOCI to income	\$ —	\$ —	\$ (1)	

The gains or losses recorded in income related to components excluded from the assessment of effectiveness for derivative instruments designated as cash flow hedges were immaterial for the periods presented.

Gains and (losses) on derivative instruments designated as net investment hedges were recognized in other comprehensive income (loss) during the periods presented below.

(in millions)	Three Months Ended June 30,		Six Months Ended June 30,	
	2021	2020	2021	2020
Net investment hedges				
Foreign currency	\$ 1	\$ —	\$ (6)	\$ 1
Cross-currency swaps	\$ 3	\$ (17)	\$ 47	\$ 18
Foreign currency-denominated debt	\$ 12	\$ (10)	\$ 37	\$ (2)

Derivatives designated as net investment hedge instruments, as defined by ASC Topic 815, held during the period resulted in the following gains recorded in Interest expense on components excluded from the assessment of effectiveness:

(in millions)	Three Months Ended June 30,		Six Months Ended June 30,	
	2021	2020	2021	2020
Net investment hedges				
Cross-currency swaps	\$ 5	\$ 3	\$ 10	\$ 7

There were no gains or losses recorded in income related to components excluded from the assessment of effectiveness for foreign currency-denominated debt designated as net investment hedges. There were no gains and losses reclassified from AOCI for net investment hedges during the periods presented.

Derivatives not designated as hedging instruments are used to hedge remeasurement exposures of monetary assets and liabilities denominated in currencies other than the operating units' functional currency. These derivatives resulted in the following gains recorded in income:

(in millions)		Three Months Ended June 30,		Six Months Ended June 30,	
Contract Type	Location	2021	2020	2021	2020
Foreign Currency	Selling, general and administrative expenses	\$ 4	\$ —	\$ 5	\$ 3

## NOTE 17 RETIREMENT BENEFIT PLANS

The Company has a number of defined benefit pension plans and other postretirement benefit plans covering eligible salaried and hourly employees and their dependents. The estimated contributions to the Company's defined benefit pension plans for 2021 range from \$15 million to \$25 million, of which \$12 million has been contributed through the first six months of the year. The other postretirement benefit plans, which provide medical and life insurance benefits, are funded on a pay-as-you-go basis.

The components of net periodic benefit (income) cost recorded in the Condensed Consolidated Statements of Operations are as follows:

(in millions)	Pension benefits				Other postretirement employee benefits	
	2021		2020		2021	2020
	US	Non-US	US	Non-US		
Three Months Ended June 30,						
Service cost	\$ —	\$ 7	\$ —	\$ 5	\$ —	\$ —
Interest cost	—	7	2	3	—	—
Expected return on plan assets	(2)	(21)	(2)	(6)	—	—
Amortization of unrecognized prior service credit	—	—	—	—	(1)	—
Amortization of unrecognized loss	—	4	—	2	1	—
Net periodic benefit (income) cost	<u>\$ (2)</u>	<u>\$ (3)</u>	<u>\$ —</u>	<u>\$ 4</u>	<u>\$ —</u>	<u>\$ —</u>

(in millions)	Pension benefits				Other postretirement employee benefits	
	2021		2020		2021	2020
	US	Non-US	US	Non-US		
Six Months Ended June 30,						
Service cost	\$ —	\$ 13	\$ —	\$ 10	\$ —	\$ —
Interest cost	1	15	3	5	—	1
Expected return on plan assets	(5)	(42)	(5)	(12)	—	—
Amortization of unrecognized prior service credit	—	—	—	—	(1)	(1)
Amortization of unrecognized loss	1	7	1	5	1	—
Net periodic benefit (income) cost	<u>\$ (3)</u>	<u>\$ (7)</u>	<u>\$ (1)</u>	<u>\$ 8</u>	<u>\$ —</u>	<u>\$ —</u>

The components of net periodic benefit (income) cost other than the service cost component are included in Other postretirement income in the Condensed Consolidated Statements of Operations.

## NOTE 18 STOCKHOLDERS' EQUITY

The changes of the Stockholders' Equity items during the three and six months ended June 30, 2021 and 2020, are as follows:

(in millions)	BorgWarner Inc. stockholders' equity					
	Issued common stock	Capital in excess of par value	Treasury stock	Retained earnings	Accumulated other comprehensive income (loss)	Noncontrolling interests

## **NOTE 20 CONTINGENCIES**

In the normal course of business, the Company is party to various commercial and legal claims, actions and complaints, including matters involving warranty claims, intellectual property claims, general liability and other risks. It is not possible to predict with certainty whether or not the Company will ultimately be successful in any of these commercial and legal matters or, if not, what the impact might be. The Company's environmental contingencies are discussed below. The Company's management does not expect that an adverse outcome in any of these other commercial and legal claims, actions and complaints will have a material adverse effect on the Company's results of operations, financial position or cash flows, although such adverse outcome could be material to the results of operations in a particular quarter.

### **Environmental**

The Company and certain of its current and former direct and indirect corporate predecessors, subsidiaries and divisions have been identified by the United States Environmental Protection Agency and certain state environmental agencies and private parties as potentially responsible parties ("PRPs") at various hazardous waste disposal sites under the Comprehensive Environmental Response, Compensation and Liability Act ("Superfund") and equivalent state laws and, as such, may presently be liable for the cost of clean-up and other remedial activities at 26 such sites as of June 30, 2021 and December 31, 2020. Responsibility for clean-up and other remedial activities at a Superfund site is typically shared among PRPs based on an allocation formula.

The Company believes that none of these matters, individually or in the aggregate, will have a material adverse effect on its results of operations, financial position or cash flows. Generally, this is because either the estimates of the maximum potential liability at a site are not material or the liability will be shared with other PRPs, although no assurance can be given with respect to the ultimate outcome of any such matter.

The Company had an accrual for environmental liabilities of \$7 million as of June 30, 2021 and December 31, 2020 included in Other current and Other non-current liabilities in the Condensed Consolidated Balance Sheets. This accrual is based on information available to the Company (which, in most cases, includes an estimate of allocation of liability among PRPs; the probability that other PRPs, many of whom are large, solvent public companies, will fully pay the cost apportioned to them; currently available information from PRPs and/or federal or state environmental agencies concerning the scope of contamination and estimated remediation and consulting costs; and remediation alternatives).

## **NOTE 21 EARNINGS (LOSS) PER SHARE**

The Company presents both basic and diluted earnings per share of common stock ("EPS") amounts. Basic EPS is calculated by dividing net earnings attributable to BorgWarner Inc. by the weighted average shares of common stock outstanding during the reporting period. Diluted EPS is calculated by dividing net earnings attributable to BorgWarner Inc. by the weighted average shares of common stock and common stock equivalents outstanding during the reporting period.

The dilutive impact of stock-based compensation is calculated using the treasury stock method. The treasury stock method assumes that the Company uses the assumed proceeds from the exercise of awards to repurchase common stock at the average market price during the period. The assumed proceeds under the treasury stock method include the purchase price that the grantee will pay in the future and compensation cost for future service that the Company has not yet recognized. The dilutive effects of performance-based stock awards are included in the computation of diluted earnings per share

at the level the related performance criteria are met through the respective balance sheet date. There were 778,962 of performance share units excluded from the computation of the diluted earnings for the three months ended June 30, 2021. There were 852,170 and 244,700 of performance share units excluded from the computation of the diluted earnings per share for the six months ended June 30, 2021 and 2020, respectively. These units were excluded, because the related performance criteria had not been met as of the balance sheet date.

The following table reconciles the numerators and denominators used to calculate basic and diluted earnings per share of common stock:

(in millions, except per share amounts)	Three Months Ended June 30,		Six Months Ended June 30,	
	2021	2020	2021	2020
<b>Basic earnings (loss) per share:</b>				
Net earnings (loss) attributable to BorgWarner Inc.	\$ 247	\$ (98)	\$ 312	\$ 31
Weighted average shares of common stock outstanding	238.2	206.0	237.9	205.8
Basic earnings (loss) per share of common stock	<u>\$ 1.03</u>	<u>\$ (0.47)</u>	<u>\$ 1.31</u>	<u>\$ 0.15</u>
<b>Diluted earnings (loss) per share:</b>				
Net earnings (loss) attributable to BorgWarner Inc.	\$ 247	\$ (98)	\$ 312	\$ 31
Weighted average shares of common stock outstanding	238.2	206.0	237.9	205.8
Effect of stock-based compensation*	1.4	—	1.1	0.6
Weighted average shares of common stock outstanding including dilutive shares	239.6	206.0	239.0	206.4
Diluted earnings (loss) per share of common stock	<u>\$ 1.03</u>	<u>\$ (0.47)</u>	<u>\$ 1.30</u>	<u>\$ 0.15</u>
Anti-dilutive stock-based awards excluded from the calculation of diluted earnings per share:	—	—	—	—

\* The Company had a loss for the three months ended June 30, 2020. As a result, diluted loss per share is the same as basic loss per share in the period, as any dilutive securities would reduce the loss per share. There were 2.8 million stock-based awards excluded from the computation of diluted earnings per share for the three months ended June 30, 2020.

## NOTE 22 REPORTING SEGMENTS AND RELATED INFORMATION

The Company's business is comprised of four reporting segments: Air Management, e-Propulsion & Drivetrain, Fuel Injection and Aftermarket. These segments are strategic business groups that are managed separately as each represents a specific grouping of related automotive components and systems.

The Company allocates resources to each segment based upon the projected after-tax return on invested capital ("ROIC") of its business initiatives. ROIC is comprised of Segment Adjusted EBIT after deducting notional taxes compared to the projected average capital investment required. Segment Adjusted EBIT is comprised of earnings before interest, income taxes and noncontrolling interest ("EBIT") adjusted for restructuring, merger, acquisition and divestiture expense, impairment charges, affiliates' earnings and other items not reflective of ongoing operating income or loss.

Segment Adjusted EBIT is the measure of segment income or loss used by the Company. The Company believes Segment Adjusted EBIT is most reflective of the operational profitability or loss of our reporting segments. The following tables show segment information and Segment Adjusted EBIT for the Company's reporting segments:

## Net Sales by Reporting Segment

(in millions)	Three Months Ended June 30,		Six Months Ended June 30,	
	2021	2020	2021	2020

Non-cash investing transactions:	June 30, 2021	December 31, 2020
Period end accounts payable related to property, plant and equipment purchases	\$ 95	\$ 182

## Item 2. Management’s Discussion and Analysis of Financial Condition and Results of Operations

### INTRODUCTION

BorgWarner Inc. and Consolidated Subsidiaries (the “Company” or “BorgWarner”) is a global product leader in clean and efficient technology solutions for combustion, hybrid and electric vehicles. Our products help improve vehicle performance, propulsion efficiency, stability and air quality. These products are manufactured and sold worldwide, primarily to original equipment manufacturers (“OEMs”) of light vehicles (passenger cars, sport-utility vehicles, vans and light trucks). The Company’s products are also sold to other OEMs of commercial vehicles (medium-duty trucks, heavy-duty trucks and buses) and off-highway vehicles (agricultural and construction machinery and marine applications). We also manufacture and sell our products to certain tier one vehicle systems suppliers and into the aftermarket for light, commercial and off-highway vehicles. The Company operates manufacturing facilities serving customers in Europe, the Americas and Asia and is an original equipment supplier to nearly every major automotive OEM in the world.

On June 4, 2021, the Company completed its voluntary public takeover offer for shares of AKASOL AG (“AKASOL”), resulting in the Company becoming majority owner of AKASOL. The results of operations for AKASOL and Delphi Technologies PLC (“Delphi Technologies”) are not included in the Company’s financial information for the three and six months ended June 30, 2020. On October 1, 2020, the Company completed its acquisition of 100% of the outstanding ordinary shares of Delphi Technologies. Results of operations for Delphi Technologies are included in the Company’s financial information for the three and six months ended June 30, 2021. Refer to Note 3, “Acquisitions,” to the Condensed Consolidated Financial Statements in Item 1 of this report for more information.

#### ***COVID-19 Pandemic Update***

Throughout 2020, COVID-19 materially impacted the Company’s business and results of operations. During the first quarter of 2020, the impact of COVID-19 was initially experienced primarily by operations in China. Following the declaration of COVID-19 as a global pandemic on March 11, 2020, government authorities around the world began to impose shelter-in-place orders and other restrictions. As a result, many OEMs began suspending manufacturing operations, particularly in North America and Europe. This led to various temporary closures of, or reduced operations at, the Company’s manufacturing facilities, late in the first quarter of 2020 and throughout the second quarter of 2020.

During the second half of 2020, as global management of COVID-19 evolved and government restrictions were removed or lessened, production levels improved, and substantially all of our production facilities resumed closer to normal operations by the end of the third quarter of 2020. We continue to monitor the evolving situation and guidance from international and domestic authorities, including federal, state and local public health authorities and may take additional actions based on their recommendations. In these circumstances, there may be developments outside of our control requiring us to adjust our operating plan. It is possible a resurgence of COVID-19 could result in adverse impacts in the future. We cannot reasonably estimate the full impact COVID-19 could have on our financial condition, results of operations or cash flows in the future.

## **Acquisition of AKASOL**

On June 4, 2021, a wholly-owned subsidiary of the Company, ABBA BidCo AG (“ABBA BidCo”), completed a voluntary public takeover offer for shares of AKASOL, resulting in ownership of 89% of AKASOL’s outstanding shares. The Company paid approximately €648 million (\$788 million) to settle the offer from current cash balances, which included proceeds received from its previously announced public offering of 1.00% Senior Notes due 2031 completed on May 19, 2021. Following the settlement of the offer, AKASOL became a consolidated majority-owned subsidiary of the Company. Upon closing, the Company also consolidated approximately €64 million (\$77 million) of gross debt of AKASOL. Subsequent to the completion of the voluntary public takeover offer, and through June 30, 2021, the Company purchased additional shares of AKASOL for €28 million (\$33 million) increasing its ownership to 93% as of that date. The acquisition further strengthens BorgWarner’s commercial vehicle and industrial electrification capabilities, which positions the Company to capitalize on what it believes to be a fast-growing battery pack market. Refer to Note 3, “Acquisitions,” to the Condensed Consolidated Financial Statements in Item 1 of this report for more information.

On August 2, 2021, ABBA BidCo initiated a merger squeeze-out process under German law for the purpose of merging AKASOL into ABBA BidCo and effecting the transfer of shares held by AKASOL’s remaining minority shareholders to ABBA BidCo in return for appropriate cash compensation, the amount of which has not yet been determined. To determine the appropriate cash compensation, ABBA BidCo will engage a valuation firm to carry out a valuation of AKASOL, the adequacy of which will be examined by an independent, court-appointed auditor. The overall process will take a number of months and will include a meeting of AKASOL shareholders.

## **Bond Offering**

On May 19, 2021, in anticipation of the acquisition of AKASOL and to refinance the Company's €500 million 1.800% senior notes due in November 2022, the Company completed the public offering and issuance of €1.0 billion in 1.000% senior notes due May 2031. Interest is payable annually, in arrears, on May 19 of each year. These senior notes are not guaranteed by any of the Company’s subsidiaries. On June 18, 2021, the Company repaid its €500 million 1.800% senior notes due November 2022 and incurred a loss on debt extinguishment of \$20 million, which is reflected in Interest expense in the Condensed Consolidated Statement of Operations.

## **Recent Developments – Electrification Portfolio Strategy**

The Company announced at its Investor Day on March 23, 2021, its strategy to continue to deliberately grow its electrification portfolio over time through organic investments and technology-focused acquisitions, most recently through the 2020 purchase of Delphi Technologies as well as the then-pending, and subsequently completed, acquisition of AKASOL. The Company believes it is well positioned for the industry’s anticipated migration to electric vehicles and recently announced plans to continue to expand its electrification portfolio by allocating more R&D investment toward electrification technologies and through incremental technology focused acquisitions. Additionally, the Company announced a plan to dispose of certain internal combustion assets, targeting dispositions of assets generating approximately \$1 billion in annual revenue in the next 12 to 18 months and approximately \$3 to \$4 billion in annual revenue by 2025. The Company is targeting its revenue from products for pure electric vehicles to be over 25% of its total revenue by 2025 and approximately 45% of its total revenue by 2030.

## RESULTS OF OPERATIONS

### Three Months Ended June 30, 2021 vs. Three Months Ended June 30, 2020

The following table presents a summary of our operating results:

(in millions, except per share data)	Three Months Ended June 30,			
	2021		2020	
		% of net sales		% of net sales
Net sales				
Air Management	\$ 1,854	49.3 %	\$ 826	57.9 %
e-Propulsion & Drivetrain	1,337	35.6	607	42.6
Fuel Injection	480	12.8	—	—
Aftermarket	226	6.0	—	—

Provision (benefit) for income taxes	28	0.7	(6)	(0.4)
Net earnings (loss)	274	7.3	(84)	(5.9)
Net earnings attributable to noncontrolling interest, net of tax	27	0.7	14	1.0
Net earnings (loss) attributable to BorgWarner Inc.	\$ 247	6.6 %	\$ (98)	(6.9)%
Earnings (loss) per share attributable to BorgWarner Inc. — diluted	\$ 1.03		\$ (0.47)	

**Net sales** for the three months ended June 30, 2021 totaled \$3,758 million, an increase of 164% from the three months ended June 30, 2020. During the three months ended June 30, 2021, the impact of legacy Delphi Technologies increased the Company's revenues by \$1,117 million. Excluding the net impact of stronger foreign currencies relative to the U.S. Dollar, primarily the Euro, Chinese Renminbi and Korean Won, and the net impact of the Delphi Technologies acquisition, net sales increased approximately 75%, primarily due to the recovery of global markets from the negative effects of COVID-19 on 2020 production and increased demand for the Company's products.

**Cost of sales** as a percentage of net sales was 79.7% during the three months ended June 30, 2021, compared to 87.8% during the three months ended June 30, 2020. The Company's material cost of sales was 55% and 56% of net sales during the three months ended June 30, 2021 and 2020, respectively. Gross profit and gross margin were \$762 million and 20.3%, respectively, during the three months ended June 30, 2021 compared to \$174 million and 12.2%, respectively, during the three months ended June 30, 2020. The increase in gross margin was primarily due to the recovery of global markets from negative effects of COVID-19 on 2020 production.

**Selling, general and administrative** ("SG&A") expenses for the three months ended June 30, 2021 were \$364 million as compared to \$184 million for the three months ended June 30, 2020. SG&A as a

percentage of net sales was 9.7% and 12.9% for the three months ended June 30, 2021 and 2020, respectively. The increase in SG&A was primarily related to the acquisition of Delphi Technologies and the reinstated costs related to specific cost reduction actions taken in response to COVID-19 during the three months ended June 30, 2020.

Research and Development (“R&D”) expenses, net of customer reimbursements, were \$166 million, or 4.4% of net sales, for the three months ended June 30, 2021, compared to \$88 million, or 6.2% of net sales, for the three months ended June 30, 2020. The increase in R&D costs, net of customer reimbursements, for the three months ended June 30, 2021 compared with the three months ended June 30, 2020 was primarily due to the acquisition of Delphi Technologies, which increased R&D costs by \$61 million, as well as higher investment to support the continued development of the Company’s electrification portfolio. The Company plans to continue to invest in a number of cross-business R&D programs, as well as a number of other key programs, all of which the Company believes are necessary to support short- and long-term growth. The Company’s current long-term expectation for R&D spending is in the range of 5.0% to 5.5% of net sales.

**Restructuring expense** was \$62 million and \$37 million for the three months ended June 30, 2021 and 2020, respectively, primarily related to employee benefit costs. The increase in 2021 was primarily due to severance costs under a legacy Delphi Technologies restructuring plan to realign its global technical center footprint and implement headcount reductions. Refer to Note 5 “Restructuring” to the Condensed Consolidated Financial Statements in Item 1 of this report for more information.

In February 2020, the Company announced a restructuring plan to address existing structural costs. During the three months ended June 30, 2021 and 2020, the Company recorded \$37 million of restructuring charges related to this plan. Cumulatively, the Company has incurred \$209 million of restructuring charges related to this plan. This plan is expected to result in a total of \$300 million of restructuring costs through 2022. The resulting annual gross savings are expected to be \$90 million to \$100 million and will be utilized to sustain overall operating margin profile and cost competitiveness. Nearly all of the restructuring charges associated with this plan are expected to be cash expenditures.

In 2019, legacy Delphi Technologies announced a restructuring plan to reshape and realign its global technical center footprint and reduce salaried and contract staff. The Company continued actions under this program post-acquisition and has recorded cumulative charges of \$33 million since October 1, 2020. Although a majority of the actions under this program have been completed, the Company does expect additional charges, which could be significant, for actions subject to negotiations with employee works council and other employee representatives.

**Other operating expense, net - other** represents items other than restructuring and was a net expense of \$19 million and \$31 million for the three months ended June 30, 2021 and 2020, respectively. This includes merger, acquisition and divestiture expense of \$15 million and \$21 million, for the three months ended June 30, 2021 and 2020, respectively. Also, during the three months ended June 30, 2021, the Company recorded a loss of \$7 million in connection with the sale of an e-Propulsion & Drivetrain technical center in Europe. During the three months ended June 30, 2020, the Company recorded asset impairment costs of \$9 million in the Air Management segment and \$8 million in the e-Propulsion & Drivetrain segment, related to the write down of property, plant and equipment associated with the announced closures of two European facilities. In addition, during the three months ended June 30, 2020, the Company recorded a \$6 million net gain from insurance recovery proceeds, which primarily represents the amount received for replacement cost in excess of carrying value for losses sustained from a tornado that damaged the Company’s plant in Seneca, South Carolina.

**Equity in affiliates’ earnings, net of tax** was \$16 million for the three months ended June 30, 2021, representing an increase of \$14 million as compared with the three months ended June 30, 2020. The increase was due to the recovery of global markets from negative effects of COVID-19 on 2020 production. This line item is driven by the results of the Company’s unconsolidated joint ventures, NSK-Warner K.K., Turbo Energy Private Limited (“TEL”) and Delphi-TVS Diesel Systems Ltd. (“DTVS”).

**Unrealized loss on equity securities** was \$4 million for the three months ended June 30, 2021. This line item reflects the net unrealized gains or losses recognized during the period related to the Company's equity securities. The amount for the three months ended June 30, 2021 was related to the Company's investment in Romeo Power, Inc. For further details, see Note 3, "Acquisitions," to the Condensed Consolidated Financial Statements in Item 1 of this report.

**Interest expense** was \$42 million for the three months ended June 30, 2021, which was an increase of \$24 million as compared with the three months ended June 30, 2020. This increase was primarily due to the Company's \$20 million loss on debt extinguishment related to the early repayment of its €500 million 1.800% senior notes settled on June 18, 2021.

**Provision for income taxes** the Company's effective tax rate for the three months ended June 30, 2021 and 2020 was 9% and 6%, respectively. During the three-month period ended June 30, 2021, unrecognized tax benefits and accrued interest were decreased for the lapse of the statute of limitations in a non-US jurisdiction for a tax holiday matter which, net of unrecognized foreign tax credits, resulted in a \$55 million tax benefit. Additionally, an increase in the United Kingdom ("UK") tax rate from 19% to 25%, effective April 1, 2023, was enacted in June 2021 resulting in a discrete tax benefit of \$20 million as a result of the revaluation of net deferred tax asset balances. The 2020 rate includes restructuring expenses, merger, acquisition and divestiture expenses, and asset impairment costs that are largely non-deductible for tax purposes. During the three months ended June 30, 2020, the Company recorded \$75 million of such expenses for which only a \$5 million tax benefit was recognized.

**Net earnings attributable to noncontrolling interest, net of tax** of \$27 million for the three months ended June 30, 2021 increased by \$13 million compared to the three months ended June 30, 2020. The increase was due to the recovery of global markets from negative effects of COVID-19 on 2020 production resulting in increased profit in joint ventures and the addition of noncontrolling interest from the Delphi Technologies acquisition.

**Six Months Ended June 30, 2021 vs. Six Months Ended June 30, 2020**

The following table presents a summary of our operating results:

(in millions, except per share data)	Six Months Ended June 30,			
	2021		2020	
Net sales	% of net sales		% of net sales	
Air Management	\$ 3,865	49.8 %	\$ 2,260	61.0 %
e-Propulsion & Drivetrain	2,803	36.1	1,467	39.6

**Net sales** for the six months ended June 30, 2021 totaled \$7,767 million, an increase of 110% from the six months ended June 30, 2020. During the six months ended June 30, 2021, the impact of legacy Delphi Technologies increased the Company's revenues by \$2,259 million. Excluding the net impact of stronger foreign currencies relative to the U.S. Dollar, primarily the Euro, Chinese Renminbi and Korean Won, and the net impact of the Delphi Technologies acquisition, net sales increased approximately 41%, primarily due to the recovery of global markets from the negative effects of COVID-19 on 2020 production and increased demand for the Company's products.

**Cost of sales** as a percentage of net sales was 79.7% during the six months ended June 30, 2021, compared to 83.2% during the six months ended June 30, 2020. The Company's material cost of sales was 54% and 55% of net sales during the six months ended June 30, 2021 and 2020, respectively. Gross profit and gross margin were \$1,580 million and 20.3%, respectively, during the six months ended June 30, 2021 compared to \$621 million and 16.8%, respectively, during the six months ended June 30, 2020. The increase in gross margin was primarily due to the recovery of global markets from negative effects of COVID-19 on 2020 production.

**Selling, general and administrative expenses** for the six months ended June 30, 2021 were \$741 million as compared to \$397 million for the six months ended June 30, 2020. SG&A as a percentage of net sales was 9.5% and 10.7% for the six months ended June 30, 2021 and 2020, respectively. The increase in SG&A was primarily related to the acquisition of Delphi Technologies.

R&D expenses, net of customer reimbursements, were \$349 million, or 4.5% of net sales, for the six months ended June 30, 2021, compared to \$197 million, or 5.3% of net sales, for the six months ended June 30, 2020. The increase in R&D costs, net of customer reimbursements, for the six months ended June 30, 2021 compared with the six months ended June 30, 2020 was primarily due to the acquisition of Delphi Technologies, which increased R&D costs by \$132 million.

**Restructuring expense** was \$92 million and \$52 million for the six months ended June 30, 2021 and 2020, respectively, primarily related to employee benefit costs. The increase in 2021 was primarily due to severance costs under a legacy Delphi Technologies restructuring plan to realign its global technical center footprint and implement headcount reductions. Refer to Note 5 “Restructuring” to the Condensed Consolidated Financial Statements in Item 1 of this report for more information.

In February 2020, the Company announced a restructuring plan to address existing structural costs. During the six months ended June 30, 2021 and 2020, the Company recorded \$61 million and \$52 million of restructuring charges related to this plan, respectively.

**Other operating expense, net - other** represents items other than restructuring and was net expense of \$27 million and \$52 million for the six months ended June 30, 2021 and 2020, respectively, including merger, acquisition and divestiture expense of \$28 million and \$42 million, for the six months ended June 30, 2021 and 2020, respectively. Also, during the six months ended June 30, 2021, the Company recorded a loss of \$7 million in connection with the sale of an e-Propulsion & Drivetrain technical center in Europe. During the six months ended June 30, 2020, the Company recorded asset impairment costs of \$9 million in the Air Management segment and \$8 million in the e-Propulsion & Drivetrain segment, related to the write down of property, plant and equipment associated with the announced closures of two European facilities. In addition, during the six months ended June 30, 2020, the Company recorded a \$6 million net gain from insurance recovery proceeds which primarily represents the amount received for replacement cost in excess of carrying value for losses sustained from a tornado that damaged the Company’s plant in Seneca, South Carolina.

**Equity in affiliates’ earnings, net of tax** was \$28 million for the six months ended June 30, 2021, representing an increase of \$21 million as compared with the six months ended June 30, 2020. The increase was due to the recovery of global markets from negative effects of COVID-19 on 2020 production. This line item is driven by the results of the Company’s unconsolidated joint ventures, NSK-Warner K.K., TEL and DTVS.

**Unrealized loss on equity securities** was \$276 million and \$9 million for the six months ended June 30, 2021 and 2020. This line item reflects the net unrealized gains or losses recognized during the period related to the Company’s equity securities. The amounts for the six months ended June 30, 2021 and 2020 were related to the Company’s investment in Romeo Power, Inc. For further details, see Note 3, “Acquisitions,” to the Condensed Consolidated Financial Statements in Item 1 of this report.

**Interest expense** was \$63 million for the six months ended June 30, 2021, which was an increase of \$33 million as compared with the six months ended June 30, 2020. This increase was primarily due to the Company’s \$20 million loss on debt extinguishment related to the early repayment of its €500 million 1.800% senior notes settled on June 18, 2021. In addition, the increase is due to the Company’s \$1.1 billion senior notes issuance in June 2020 and the \$800 million of senior notes acquired as part of the Delphi Technologies acquisition.

**Provision for income taxes** the Company’s effective tax rate for the six months ended June 30, 2021 and 2020 was 16% and 45%, respectively. During the six-month period ended June 30, 2021, unrecognized tax benefits and accrued interest were decreased for the lapse of the statute of limitations in a non-US jurisdiction for a tax holiday matter which, net of unrecognized foreign tax credits, resulted in a \$55 million tax benefit. Additionally, an increase in the UK tax rate from 19% to 25%, effective April 1, 2023, was enacted in June 2021 resulting in a discrete tax benefit of \$20 million as a result of the

reevaluation of net deferred tax asset balances. Further, the Company's effective tax rate includes a net discrete tax benefit of \$24 million primarily related to changes to certain withholding rates applied to unremitted earnings. The 2020 rate was unfavorably impacted by \$94 million of restructuring expenses and merger, acquisition and divestiture expenses that were largely non-deductible for tax purposes, resulting in only \$9 million of tax benefit being recognized. This rate was further unfavorably impacted by \$26 million of asset impairment charges for which no tax benefit was recognized as full valuation allowances were recorded against the corresponding deferred tax assets. The Company also recorded reductions in income tax expense of \$10 million for other one-time adjustments primarily related to tax law changes in India that were enacted during the first three months of 2020 and the release of certain unrecognized tax benefits due to the closure of an audit.

**Net earnings attributable to noncontrolling interest, net of tax** of \$56 million for the six months ended June 30, 2021 increased by \$34 million compared to the six months ended June 30, 2020. The increase was due to the recovery of global markets from negative effects of COVID-19 on 2020 production resulting in increased profit in joint ventures and the addition of noncontrolling interests from the Delphi Technologies acquisition.

## Non-comparable items impacting the Company's earnings per diluted share and net earnings

The Company's earnings (loss) per diluted share were \$1.03 and \$(0.47) for the three months ended June 30, 2021 and 2020, respectively, and \$1.30 and \$0.15 for the six months ended June 30, 2021 and 2020, respectively. The Company believes the following table is useful in highlighting non-comparable items that impacted its earnings per diluted share.

	Three Months Ended June 30,		Six Months Ended June 30,	
	2021	2020	2021	2020
<b>Non-comparable items:</b>				
Restructuring expense	\$ (0.19)	\$ (0.15)	\$ (0.31)	\$ (0.21)
Merger, acquisition and divestiture expense <sup>1</sup>	(0.06)	(0.10)	(0.10)	(0.20)
Loss on sale <sup>2</sup>	(0.03)	—	(0.03)	—
Asset impairments <sup>3</sup>	—	(0.08)	—	(0.08)
Net gain on insurance proceeds for property damage <sup>4</sup>	—	0.02	—	0.02
Unrealized loss on equity securities <sup>5</sup>	(0.01)	—	(0.88)	(0.04)
Loss on debt extinguishment <sup>6</sup>	(0.06)	—	(0.06)	—
Delayed draw term loan cancellation	—	(0.01)	—	(0.01)
Tax adjustments <sup>7</sup>	0.30	(0.01)	0.38	0.05
<b>Total impact of non-comparable items per share - diluted</b>	<b>\$ (0.05)</b>	<b>\$ (0.33)</b>	<b>\$ (1.00)</b>	<b>\$ (0.47)</b>

<sup>1</sup> During the three months ended June 30, 2021 and 2020, the Company recorded merger, acquisition and divestiture expense of \$15 million and \$21 million, respectively. During the six months ended June 30, 2021 and 2020, the Company recorded merger, acquisition and divestiture expense of \$28 million and \$42 million, respectively. The expense for 2021 primarily related to professional fees for integration and other support associated with the Company's acquisition of Delphi Technologies completed on October 1, 2020 and professional fees associated with the acquisition of AKASOL completed on June 4, 2021. The expense for 2020 primarily related to professional fees associated with the Company's acquisition of Delphi Technologies.

<sup>2</sup> During the three months ended June 30, 2021, the Company recorded a loss of \$7 million in connection with the sale of an e-Propulsion & Drivetrain technical center in Europe.

<sup>3</sup> During the three and six months ended June 30, 2020, the Company recorded asset impairment costs of \$9 million in the Air Management segment and \$8 million in the e-Propulsion & Drivetrain segment, related to the write down of property, plant and equipment associated with the announced closures of two European facilities.

<sup>4</sup> During the three and six months ended June 30, 2020, the Company recorded a \$6 million net gain from insurance recovery proceeds which primarily represents the amount received for replacement cost in excess of carrying value for losses sustained from a tornado that damaged the Company's plant in Seneca, South Carolina.

<sup>5</sup> Unrealized loss on equity securities represents the net unrealized loss recognized related to the Company's equity securities in Romeo Power, Inc. Refer to Note 3, "Acquisitions," to the Condensed Consolidated Financial Statements in Item 1 of this report for more information.

<sup>6</sup> During the three and six months ended June 30, 2021, the Company recorded a \$20 million loss on debt extinguishment related to the early repayment of its €500 million 1.800% senior notes.

<sup>7</sup> The Company's provision for income taxes for the three and six months ended June 30, 2021, includes reductions to tax expense of \$75 million and \$99 million, respectively. During the three and six months ended June 30, 2021, the primary items included a \$55 million tax benefit related to the lapse of the statute of limitations in a non-US jurisdiction for a tax holiday matter and a discrete tax benefit of \$20 million related to an increase in the UK tax rate. The six months ended June 30, 2021, also included a discrete tax benefit of \$24 million primarily related to changes to certain withholding rates applied to unremitted earnings.

## Reporting Segments

The Company's business is comprised of four reporting segments: Air Management, e-Propulsion & Drivetrain, Fuel Injection and Aftermarket.

The Company allocates resources to each segment based upon the projected after-tax return on invested capital ("ROIC") of its business initiatives. ROIC is comprised of Segment Adjusted EBIT after deducting

notional taxes compared to the projected average capital investment required. Segment Adjusted EBIT is comprised of earnings before interest, income taxes and noncontrolling interest (“EBIT”) adjusted for restructuring, goodwill impairment charges, affiliates’ earnings and other items not reflective of ongoing operating income or loss.

Segment Adjusted EBIT is the measure of segment income or loss used by the Company. The Company believes Segment Adjusted EBIT is most reflective of the operational profitability or loss of our reporting segments. The following tables show segment information and Segment Adjusted EBIT for the Company’s reporting segments.

**Segment Adjusted EBIT**

(in millions)	Three Months Ended June 30,				Six Months Ended June 30,			
	2021	% margin	2020	% margin	2021	% margin	2020	% margin
Air Management	\$ 277	14.9 %	\$ 28	3.4 %	\$ 599	15.5 %	\$ 236	10.4 %
e-Propulsion & Drivetrain	132	9.9 %	1	0.2 %	269	9.6 %	64	4.4 %
Fuel Injection	38	7.9 %	—	n/a	71	7.4 %	—	n/a
Aftermarket	32	14.2 %	—	n/a	53	12.5 %	—	n/a
Segment Adjusted EBIT	<u>\$ 479</u>		<u>\$ 29</u>		<u>\$ 992</u>		<u>\$ 300</u>	

**Three Months Ended June 30, 2021 vs. Three Months Ended June 30, 2020**

The **Air Management** segment’s net sales increased \$1,028 million, or 124%, and Segment Adjusted EBIT increased \$249 million from the three months ended June 30, 2020. The Delphi Technologies acquisition increased Air Management revenues by \$284 million for the three months ended June 30, 2021. Excluding the net impact of stronger foreign currencies relative to the U.S. Dollar, primarily the Euro, Chinese Renminbi and Korean Won, and the net impact of the Delphi Technologies acquisition, net sales increased approximately 79% from the three months ended June 30, 2020, primarily due to the recovery of global markets from the negative effects of COVID-19 on 2020 production and increased demand for the Company’s products. The Segment Adjusted EBIT margin was 14.9% for the three months ended June 30, 2021, compared to 3.4% for the three months ended June 30, 2020. The Segment Adjusted EBIT margin increase was primarily due to the impact of higher sales and savings arising from the Company’s restructuring initiatives.

The **e-Propulsion & Drivetrain** segment’s net sales increased \$730 million, or 120%, and Segment Adjusted EBIT increased \$131 million from the three months ended June 30, 2020. The Delphi Technologies acquisition increased e-Propulsion & Drivetrain revenues by \$250 million for the three months ended June 30, 2021. Excluding the impact of stronger foreign currencies relative to the U.S. Dollar, primarily the Euro, Chinese Renminbi and Korean Won, and the net impact of the Delphi Technologies acquisition, net sales increased 70% from the three months ended June 30, 2020, primarily due to the recovery of global markets from the negative effects of COVID-19 on 2020 production and increased demand for the Company’s products. The e-Propulsion & Drivetrain Segment Adjusted EBIT margin was 9.9% during the three months ended June 30, 2021, up from 0.2% during the three months ended June 30, 2020, primarily due to the impact of higher sales.

The **Fuel Injection** segment’s net sales and Segment Adjusted EBIT for the three months ended June 30, 2021 were \$480 million and \$38 million, respectively. The Segment Adjusted EBIT margin was 7.9% in the three months ended June 30, 2021. This is a new reporting segment following the acquisition of Delphi Technologies on October 1, 2020.

The **Aftermarket** segment’s net sales and Segment Adjusted EBIT for the three months ended June 30, 2021 were \$226 million and \$32 million, respectively. The Segment Adjusted EBIT margin was 14.2% in the three months ended June 30, 2021. This is a new reporting segment following the acquisition of Delphi Technologies on October 1, 2020.

## **Six Months Ended June 30, 2021 vs. Six Months Ended June 30, 2020**

The **Air Management** segment's net sales increased \$1,605 million, or 71%, and Segment Adjusted EBIT increased \$363 million, or 154%, from the six months ended June 30, 2020. The Delphi Technologies acquisition increased Air Management revenues by \$606 million for the six months ended June 30, 2021. Excluding the net impact of stronger foreign currencies relative to the U.S. Dollar, primarily the Euro, Chinese Renminbi and Korean Won, and the net impact of the Delphi Technologies acquisition, net sales increased approximately 36% from the six months ended June 30, 2020, primarily due to the recovery of global markets from the negative effects of COVID-19 on 2020 production and increased demand for the Company's products. The Segment Adjusted EBIT margin was 15.5% for the six months ended June 30, 2021, compared to 10.4% for the six months ended June 30, 2020. The Segment Adjusted EBIT margin increase was primarily due to the impact of higher sales and savings arising from the Company's restructuring initiatives.

The **e-Propulsion & Drivetrain** segment's net sales increased \$1,336 million, or 91%, and Segment Adjusted EBIT increased \$205 million from the six months ended June 30, 2020. The Delphi Technologies acquisition increased e-Propulsion & Drivetrain revenues by \$518 million for the six months ended June 30, 2021. Excluding the impact of stronger foreign currencies relative to the U.S. Dollar, primarily the Euro, Chinese Renminbi and Korean Won, and the net impact of the Delphi Technologies acquisition, net sales increased 48% from the six months ended June 30, 2020, primarily due to the recovery of global markets from the negative effects of COVID-19 on 2020 production and increased demand for the Company's products. The e-Propulsion & Drivetrain Segment Adjusted EBIT margin was 9.6% during the six months ended June 30, 2021, up from 4.4% during the six months ended June 30, 2020, primarily due to the impact of higher sales.

The **Fuel Injection** segment's net sales and Segment Adjusted EBIT for the six months ended June 30, 2021 were \$955 million and \$71 million, respectively. The Segment Adjusted EBIT margin was 7.4% in the six months ended June 30, 2021. The Segment Adjusted EBIT for the six months ended June 30, 2021 included expense of \$20 million related to an agreement to continue supply from a troubled supplier.

The **Aftermarket** segment's net sales and Segment Adjusted EBIT for the six months ended June 30, 2021 were \$423 million and \$53 million, respectively. The Segment Adjusted EBIT margin was 12.5% in the six months ended June 30, 2021.

## **Outlook**

Our overall outlook for 2021 is positive. The Company expects global industry production to increase year over year based on the assumption that the negative effects of COVID-19 on 2020 production will not recur in 2021. The Company expects net new business-related sales growth, due to increased penetration of BorgWarner products around the world, to drive a sales increase in line with or greater than the year-over-year increase in industry production. As result, the Company expects increased revenue in 2021, excluding the impact of foreign currencies and the net impact of acquisitions and divestitures.

In the first half of 2021, we experienced component supply constraints similar to others in the automotive industry, as have our customers. These supply constraints began to impact production in March and continued to cause further reductions in volumes in our second quarter. The Company expects continuing disruptions in the second half of 2021. In addition, the Company's results of operations for the first half of 2021 have been negatively impacted by the rising costs of commodities, and we expect commodity cost volatility, particularly related to steel and petroleum-based resin products, to have a continual impact on our results of operations for the remainder of the year. As such, we continually seek to mitigate both inflationary pressures and our material-related cost exposures using multiple approaches.

The Company maintains a positive long-term outlook for its global business and is committed to new product development and strategic capital investments to enhance its product leadership strategy. There are several trends that are driving the Company's long-term growth that we expect to continue, including adoption of product offerings for electrified vehicles, increasingly stringent global emissions standards that support demand for the Company's products driving vehicle efficiency and increased global penetration of all-wheel drive.

## **FINANCIAL CONDITION, CAPITAL RESOURCES AND LIQUIDITY**

The Company maintains various liquidity sources, including cash and cash equivalents and the unused portion of its multi-currency revolving credit agreement. At June 30, 2021, the Company had \$1,568 million of cash and cash equivalents including \$15 million of restricted cash. Cash balances of \$844 million were held by our subsidiaries outside the United States. Cash held by these subsidiaries is used to fund foreign operational activities and future investments, including acquisitions.

The vast majority of cash held outside the United States is available for repatriation. The Company uses its U.S. liquidity primarily for various corporate purposes, including but not limited to debt service, share repurchases, dividend distributions and other corporate expenses.

The Company has a \$2.0 billion multi-currency revolving credit facility that allows the Company the ability to increase the facility by \$1.0 billion with bank group approval. The credit agreement contains customary events of default and one key financial covenant, which is a debt-to-EBITDA (Earnings Before Interest, Taxes, Depreciation and Amortization) ratio. The Company was in compliance with the financial covenant at June 30, 2021. At June 30, 2021 and December 31, 2020, the Company had no outstanding borrowings under this facility.

The Company's commercial paper program allows the Company to issue up to \$2.0 billion of short-term, unsecured commercial paper notes under the limits of its multi-currency revolving credit facility. Under this program, the Company may issue notes from time to time and use the proceeds for general corporate purposes. The Company had no outstanding borrowings under this program as of June 30, 2021 and December 31, 2020.

The total current combined borrowing capacity under the multi-currency revolving credit facility and commercial paper program cannot exceed \$2 billion. In addition to the credit facility, the Company's universal shelf registration provides the ability to issue various debt and equity instruments subject to market conditions.

On February 12, 2021, April 28, 2021, and July 28, 2021 the Company's Board of Directors declared quarterly cash dividends of \$0.17 per share of common stock. The dividends declared in the first and second quarters were paid on March 15, 2021, and June 15, 2021, respectively. The dividends declared in the third quarter will be paid on September 15, 2021.

On January 28, 2020, the Company entered into a definitive agreement to acquire Delphi Technologies. During 2020, due to the business disruptions from COVID-19 and uncertainties surrounding the Delphi Technologies acquisition, Standard & Poor's downgraded the Company's rating from BBB+ with a stable outlook to BBB with a negative outlook. Additionally, Moody's and Fitch adjusted their outlooks from stable to negative but maintained the Company's credit ratings at Baa1 and BBB+, respectively. In April 2021, Moody's reaffirmed the Company's Baa1 credit rating and adjusted their outlook from negative to stable. In May 2021, Fitch Ratings reaffirmed the Company's BBB+ rating and adjusted their outlook from negative to stable. None of the Company's debt agreements require accelerated repayment in the event of a downgrade in credit ratings.

## Cash Flows

### Operating Activities

(in millions)	Six Months Ended June 30,	
	2021	2020
<b>OPERATING</b>		
Net earnings	\$ 368	\$ 53
Adjustments to reconcile net earnings to net cash flows from operations:		
Depreciation and amortization	390	224
Restructuring expense, net of cash paid	59	45
Stock-based compensation expense	27	16
Loss on sale	7	—
Loss on debt extinguishment	20	—
Asset impairments	—	17
Deferred income tax benefit	(99)	(24)
Unrealized loss on equity securities	276	9
Gain on insurance recovery received for property damages	(2)	(9)
Other non-cash adjustments	(12)	(8)
Net earnings adjustments to reconcile to net cash flows from operations	1,034	323
Retirement plan contributions	(12)	(10)
Changes in assets and liabilities, excluding effects of acquisitions, divestitures and foreign currency translation adjustments:		
Receivables	(158)	362
Inventories	(260)	(40)
Prepayments and other current assets	(21)	(8)
Accounts payable and accrued expenses	41	(284)
Prepaid taxes and income taxes payable	30	(23)
Other assets and liabilities	(32)	7
Net cash provided by operating activities	\$ 622	\$ 327

Net cash provided by operating activities increased to \$622 million during the first six months of 2021 from \$327 million during the first six months of 2020. The \$295 million increase in cash provided by operating activities was primarily due to higher net earnings adjusted for non-cash charges, partially offset by higher working capital levels primarily due to increased sales and inventory levels.

### Investing Activities

(in millions)	Six Months Ended June 30,	
	2021	2020
<b>INVESTING</b>		
Capital expenditures, including tooling outlays	\$ (342)	\$ (171)
Capital expenditures for damage to property, plant and equipment	(2)	—
Insurance proceeds received for damage to property, plant and equipment	—	22
Payments for businesses acquired, net of cash and restricted cash acquired	(759)	(2)
Proceeds from settlement of net investment hedges, net	11	6
Payments for investments in equity securities and other, net	(7)	(2)
Net cash used in investing activities	\$ (1,099)	\$ (147)

Net cash used in investing activities increased to \$1,099 million during the first six months of 2021 from \$147 million during the first six months of 2020. This increase was primarily due to cash outflows related to the 2021 acquisition of AKASOL and higher capital expenditures.

### **Financing Activities**

(in millions)	Six Months Ended June 30,	
	2021	2020
<b>FINANCING</b>		
Net decrease in notes payable	\$ (6)	\$ —
Additions to debt	1,229	1,143
Payments for debt issuance costs	(10)	(10)
Repayments of debt, including current portion	(671)	(35)
Payments for stock-based compensation items	(14)	(13)
Purchase of noncontrolling interest	(33)	—
Dividends paid to BorgWarner stockholders	(81)	(70)
Dividends paid to noncontrolling stockholders	(5)	(16)
Net cash provided by financing activities	\$ 409	\$ 999

Net cash provided by financing activities of \$409 million during the first six months of 2021 decreased \$590 million compared to net cash provided by financing activities of \$999 million during the first six months of 2020. This decrease in net cash provided by financing activities during the first six months of 2021 was primarily related to the Company's repayment of its €500 million 1.800% senior notes due November 2022. The net cash provided by financing during the first six months of 2021 also includes the Company's public offering and issuance of €1.0 billion in 1.000% senior notes due May 2031 and the \$33 million paid to acquire additional shares in AKASOL.

### **CONTINGENCIES**

In the normal course of business, the Company is party to various commercial and legal claims, actions and complaints, including matters involving warranty claims, intellectual property claims, general liability and other risks. It is not possible to predict with certainty whether or not the Company will ultimately be successful in any of these commercial and legal matters or, if not, what the impact might be. The Company's environmental contingencies are discussed below. The Company's management does not expect that an adverse outcome in any of these other commercial and legal claims, actions and complaints will have a material adverse effect on the Company's results of operations, financial position or cash flows, although such adverse outcome could be material to the results of operations in a particular quarter.

### **Environmental**

The Company and certain of its current and former direct and indirect corporate predecessors, subsidiaries and divisions have been identified by the United States Environmental Protection Agency and certain state environmental agencies and private parties as potentially responsible parties ("PRPs") at various hazardous waste disposal sites under the Comprehensive Environmental Response, Compensation and Liability Act ("Superfund") and equivalent state laws and, as such, may presently be liable for the cost of clean-up and other remedial activities at 26 such sites as of June 30, 2021 and December 31, 2020. Responsibility for clean-up and other remedial activities at a Superfund site is typically shared among PRPs based on an allocation formula.

The Company believes that none of these matters, individually or in the aggregate, will have a material adverse effect on its results of operations, financial position or cash flows. Generally, this is because

either the estimates of the maximum potential liability at a site are not material or the liability will be shared with other PRPs, although no assurance can be given with respect to the ultimate outcome of any such matter.

Refer to Note 20, “Contingencies,” to the Condensed Consolidated Financial Statements in Item 1 of this report for further details and information respecting the Company’s environmental liability.

### **New Accounting Pronouncements**

Refer to Note 2, “New Accounting Pronouncements,” to the Condensed Consolidated Financial Statements in Item 1 of this report for a detailed description of new applicable accounting pronouncements.

### **Item 3. Quantitative and Qualitative Disclosures About Market Risk**

There have been no material changes to the information concerning our exposures to interest rate risk or commodity price risk as stated in the Company’s Annual Report on Form 10-K for the year ended December 31, 2020.

Foreign currency exchange rate risk is the risk that the Company will incur economic losses due to adverse changes in foreign currency exchange rates. Currently, the Company’s most significant currency exposures relate to the Brazilian Real, Chinese Renminbi, Euro, British Pound Sterling, Hungarian Forint, and Korean Won. The Company mitigates its foreign currency exchange rate risk by establishing local production facilities and related supply chain participants in the markets it serves, by invoicing customers in the same currency as the source of the products and by funding some of its investments in foreign markets through local currency loans. The Company also monitors its foreign currency exposure in each country and implements strategies to respond to changing economic and political environments. In addition, the Company periodically enters into forward currency contracts, cross-currency swaps and foreign-currency-denominated debt designated as net investment hedges to reduce exposure to translation exchange rate risk. As of June 30, 2021 and December 31, 2020, the Company recorded a deferred loss of \$102 million and \$230 million, respectively, both before taxes, for designated net investment hedges within accumulated other comprehensive income (loss).

The foreign currency translation adjustments during the three and six months ended June 30, 2021 and 2020 are shown in the following tables, which provide the percentage change in U.S. dollar against the respective currencies and the approximate impacts of these changes recorded within other comprehensive income (loss) for the respective periods.

<i>(in millions, except for percentages)</i>	Three Months Ended June 30, 2021			Six Months Ended June 30, 2021		
Chinese renminbi	2 %	\$	32	1 %	\$	24
Brazilian real	12 %	\$	23	5 %	\$	9
Euro	1 %	\$	14	(3)%	\$	(20)
Korean won	— %	\$	(7)	(5)%	\$	(34)

(in millions, except for percentages)	Three Months Ended June 30, 2020			Six Months Ended June 30, 2020		
Euro	(2)%	\$	9	— %	\$	14
Korean won	(2)%	\$	7	4 %	\$	(14)
Chinese renminbi	— %	\$	2	1 %	\$	(17)
British pound	— %	\$	(2)	6 %	\$	(17)
Brazilian real	5 %	\$	(3)	26 %	\$	(22)

#### **Item 4. Controls and Procedures**

The Company maintains disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) of the Securities Exchange Act of 1934, as amended (the “Exchange Act”)) that are designed to ensure that information required to be disclosed by the Company in the reports that it files or submits under the Exchange Act is recorded, processed, summarized and reported, within the time periods specified in the SEC’s rules and forms. Under the supervision and with the participation of the Company’s management, including the Company’s Chief Executive Officer and Chief Financial Officer, the Company has evaluated the effectiveness of the design and operation of its disclosure controls and procedures as of the end of the period covered by this report. Based on such evaluation, the Company’s Chief Executive Officer and Chief Financial Officer have concluded that these controls and procedures are effective. There have been no changes in internal control over financial reporting that occurred during the period covered by this report that have materially affected, or are reasonably likely to materially affect, the Company’s internal control over financial reporting.

## **PART II. OTHER INFORMATION**

### **Item 1. Legal Proceedings**

The Company is subject to a number of claims and judicial and administrative proceedings (some of which involve substantial amounts) arising out of the Company's business or relating to matters for which the Company may have a contractual indemnity obligation.

On December 15, 2020, a putative derivative lawsuit captioned Nyiradi, et al. v. Michas, et al., Case 1:20-cv-01700, was filed in the United States District Court for the District of Delaware against certain former and current directors and former officers of BorgWarner. The lawsuit, which was purportedly brought on the Company's behalf, named BorgWarner as a nominal defendant. Plaintiffs alleged, among other things, violations of the federal securities laws and breaches of fiduciary duty relating to the Company's past accounting for incurred but not yet asserted asbestos liabilities and its public disclosures. As a nominal defendant, the Company had no direct exposure in connection with the lawsuit. On April 14, 2021, BorgWarner and the plaintiffs agreed in principle to dismiss the case without prejudice, without any payment by BorgWarner, and the dismissal occurred on April 22, 2021. By letter dated June 9, 2021, a different stockholder delivered a litigation demand to the Board of Directors under Delaware law that included similar allegations relating to certain current and former directors and officers. The letter demanded that the Board conduct an investigation and commence a civil action against appropriate directors and officers. The Board is considering the letter.

Refer to Note 20, "Contingencies," to the Condensed Consolidated Financial Statements of this Form 10-Q for a discussion of environmental and other litigation which is incorporated herein by reference.

### **Item 1A. Risk Factors**

During the six months ended June 30, 2021, there have been no material changes from the risk factors disclosed in the Company's Annual Report on the Form 10-K for the year ended December 31, 2020.

### **Item 2. Unregistered Sales of Equity Securities and Use of Proceeds**

In January 2020, the Company's Board of Directors authorized the purchase of up to \$1 billion of the Company's common stock, which replaced the previous share repurchase program. As of June 30, 2021, the Company has repurchased \$216 million of common stock under this repurchase program. Shares purchased under this authorization may be repurchased in the open market at prevailing prices and at times and in amounts to be determined by management as market conditions and the Company's capital position warrant. The Company may use Rule 10b5-1 and 10b-18 plans to facilitate share repurchases. Repurchased shares will be deemed common stock held in treasury and may subsequently be reissued.

Employee transactions include restricted stock withheld to offset statutory minimum tax withholding that occurs upon vesting of restricted stock. The BorgWarner Inc. 2014 Stock Incentive Plan, as amended and the BorgWarner Inc. 2018 Stock Incentive Plan provide that the withholding obligations be settled by the Company retaining stock that is part of the award. Withheld shares will be deemed common stock held in treasury and may subsequently be reissued for general corporate purposes.

The following table provides information about the Company's purchases of its equity securities that are registered pursuant to Section 12 of the Exchange Act during the quarter ended June 30, 2021:

### Issuer Purchases of Equity Securities

Period	Total number of shares purchased	Average price per share	Total number of shares purchased as part of publicly announced plans or programs	Approximate dollar value of shares that may yet be purchased under plans or programs (in millions)
April 1, 2021 - April 30, 2021				
Common Stock Repurchase Program	—	\$ —	—	\$ 784
Employee transactions	12,502	\$ 46.45	—	
May 1, 2021 - May 31, 2021				
Common Stock Repurchase Program	—	\$ —	—	\$ 784
Employee transactions	5,673	\$ 51.39	—	
June 1, 2021 - June 30, 2021				
Common Stock Repurchase Program	—	\$ —	—	\$ 784
Employee transactions	3,714	\$ 51.00	—
