

Davide Girelli

**Vice President of BorgWarner Inc.
and President and General Manager,
Fuel Injection Systems**

Davide Girelli was appointed the President and General Manager of BorgWarner Fuel Injection Systems on October 2, 2020. In this role Girelli is responsible for BorgWarner's global Fuel Injection Systems business.

Previously, Girelli served as the Vice President and General Manager for Europe and South America for Emissions, Thermal and Turbo Systems with BorgWarner Morse Systems. He began his career at BorgWarner in Italy in 2011. He has also served as General Manager for Europe at BorgWarner Morse Systems.

Girelli has nearly 25 years of experience in the automotive and aerospace industry. Prior to joining BorgWarner, he worked in research & development and operation for several global companies including FCA, Trelleborg and ITT.

Girelli earned a master's degree in Aerospace Engineering at the University of Rome La Sapienza as well as a Master of Business Administration at the University of Turin.
