

# Paul Farrell

## Vice President and Chief Strategy Officer

Dr. Paul Farrell was appointed Vice President and Chief Strategy Officer of BorgWarner Inc. on October 2, 2020. In this role, Farrell oversees all corporate strategy, advanced technology, marketing and public relations activities for the company.

He joined the company in 2020 as part of BorgWarner's acquisition of Delphi Technologies, after playing critical roles in the sale and integration planning processes. Prior to the acquisition, Farrell was Senior Vice President of Strategy and Corporate Development, where his responsibilities also included product line management, advanced engineering and licensing. He joined Delphi Automotive in 2013, progressing through various corporate and divisional executive roles in the U.S. and Europe, including serving as Delphi Technologies' lead in its spin-off and separation from Aptiv PLC.

Prior to joining Delphi, Dr. Farrell worked as a consultant at The Boston Consulting Group and A.T. Kearney, where his casework included a diverse mix of strategy, transformation and operational improvement projects for

clients in the automotive, industrial goods, consumer products and financial services sectors. He also held various engineering and operational roles at Ford Motor Company and Visteon Corporation and began his career at the General Electric Company.

Dr. Farrell holds a doctorate in mechanical engineering from the Massachusetts Institute of Technology. Additionally, he earned two master's degrees, one in business administration from Michigan State University and the second in mechanical engineering from The Pennsylvania State University. He also earned a bachelor's degree from the University of Notre Dame in mechanical engineering.

Farrell is presently a director on the boards for Tula Technology, Inc. and PolyCharge America, Inc., which are venture investments in which BorgWarner holds equity positions.
