

Tania Wingfield

Vice President and Integration
Champion of BorgWarner Inc.

Tania Wingfield was appointed Vice President and Integration Champion of BorgWarner Inc. on January 29, 2020 and is responsible for all aspects of integration planning in connection with BorgWarner's acquisition of Delphi Technologies. Previously, she was Vice President of Engineering for PowerDrive Systems.

She joined the company in 2015 as part of BorgWarner's acquisition of Remy International, and played a critical role in championing the integration. After the acquisition was complete, she was named Vice President of Product and Manufacturing Strategy for the PowerDrive Systems business unit. Prior to the acquisition, Wingfield served in various executive capacities for Remy International including Production Planning, Materials Management, Plant Manager, Corporate Director of Production Control and Logistics, Vice President of Global Supply Chain, Senior Vice President of Global Strategic Planning, Product Lifecycle Management and Program Management.

Wingfield's more than 25 years of experience includes the effective

integration of BorgWarner with both Remy International and Sevcon, Inc.; extensive experience with strategic planning, lean manufacturing and value stream management; and the successful oversight of various large-scale projects, including the creation of BorgWarner's Noblesville Technical Center located in Noblesville, Indiana.

Wingfield holds a bachelor's degree in Computer Science and Management Information Systems from Indiana University of Pennsylvania. Wingfield sits on two nonprofit boards – Indianapolis Vineyard Church and GymLovr, which is an organization that provides gymnastics opportunities for athletes with special needs. Likewise, she is an active member of the Society of Women Engineers (SWE) and Manufacturers Alliance for Productivity and Innovation (MAPI).
