

BorgWarner s'associe à Manufacture 2030 pour réduire les émissions de la chaîne d'approvisionnement

- *Ce partenariat aidera BorgWarner à atteindre son objectif de réduction des émissions du scope 3.*
- *Les fournisseurs seront encouragés à utiliser un outil de suivi de l'utilisation de l'énergie.*

Auburn Hills, Michigan, 6 mars 2024 – BorgWarner a conclu un partenariat stratégique avec [Manufacture 2030](#), fournisseur de logiciels de décarbonation, dans le but de mesurer et réduire efficacement l'empreinte carbone de sa chaîne d'approvisionnement et soutenir son objectif de réduire de 25 % les émissions absolues de gaz à effet de serre (GES) du scope 3 d'ici à 2030.

Avec cet accord, BorgWarner mettra à profit la vaste expertise de réduction des émissions de CO₂ de M2030 et s'appuiera sur son logiciel exclusif pour encourager ses fournisseurs directs de matériaux à accroître leurs efforts de réduction des émissions. M2030 travaillera directement avec les fournisseurs de BorgWarner pour recueillir des données sur la consommation d'énergie liée à la fabrication des produits, telles que l'électricité, le gaz naturel, et autres éléments. Ces données seront ensuite intégrées dans un tableau de bord interactif de suivi des émissions et des efforts de réduction de la consommation d'énergie. L'outil permettra également de diffuser les meilleures pratiques de réduction des émissions. Grâce à lui, BorgWarner favorisera la collaboration, la responsabilité et l'engagement de l'ensemble de ses fournisseurs dans l'objectif de réduire les émissions.

« BorgWarner se réjouit de collaborer avec M2030 et d'utiliser les ressources de décarbonation qu'offre l'entreprise. La réduction de l'empreinte carbone de notre base d'approvisionnement est une étape essentielle en vue de promouvoir un avenir plus propre et plus durable pour tous », a déclaré Volker Weng, Vice-Président de BorgWarner Inc., President et General Manager, BorgWarner Drivetrain and Battery Systems, Environmental Sustainability

Lead. « En proposant ce logiciel à nos fournisseurs, nous leur permettons de gérer, de suivre et de réduire leurs émissions, afin de baisser notre empreinte d'émissions du scope 3. »

Plus récemment, le [STBi a validé](#) les objectifs de réduction des émissions des scopes 1 et 2 de BorgWarner de 85 % et les émissions absolues de GES du scope 3 de 25 % d'ici 2030, par rapport à l'année de référence 2021. La stratégie d'électrification accélérée « Charging Forward », qui vise à renforcer la position de leader technologique de BorgWarner dans le domaine des produits électroniques et à optimiser son portefeuille de base, constitue un autre levier essentiel dans la poursuite de la réduction des émissions du scope 3 de l'entreprise.

À propos de BorgWarner

Depuis plus de 130 ans, BorgWarner, leader mondial, innove avec succès dans le domaine de la mobilité. Avec un portefeuille de produits en constante évolution, nous soutenons la transition mondiale vers l'e-mobilité et contribuons ainsi à la création d'un avenir propre, sain et sûr.

À propos de Manufacture 2030

Manufacture 2030 fournit aux marques mondiales, aux entreprises et à leurs PME fournisseurs les données, les outils et le soutien dont elles ont besoin pour atteindre leurs objectifs de réduction des émissions de GES. Sa plateforme logicielle exclusive mue par IA et ses services d'assistance aident à mesurer, gérer et réduire les émissions des chaînes d'approvisionnement mondiales. Forward Looking Statements: This release may contain forward-looking statements as contemplated by the 1995 Private Securities Litigation Reform Act that are based on management's current outlook, expectations, estimates and projections. Words such as "anticipates," "believes," "continues," "could," "designed," "effect," "estimates," "evaluates," "expects," "forecasts," "goal," "guidance," "initiative," "intends," "may," "outlook," "plans," "potential," "predicts," "project," "pursue," "seek," "should," "target," "when," "will," "would," and variations of such words and similar expressions are intended to identify such forward-looking statements. Further, all statements, other than statements of historical fact, contained or incorporated by reference in this release that we expect or anticipate will or may occur in the future regarding our financial position, business strategy and measures to implement that strategy, including changes to operations, competitive strengths, goals, expansion and growth of our business and operations, plans, references to future success and other such matters, are forward-looking statements. Accounting estimates, such as those described under the heading "Critical Accounting Policies and Estimates" in Item 7 of our most recently filed Annual Report on Form 10-K ("Form 10-K"), are inherently forward-looking. All forward-looking statements are based on assumptions and analyses made by us in light of our experience and our perception of historical trends, current conditions and expected future developments, as well as other factors we believe are appropriate under the circumstances. Forward-looking statements are not guarantees of performance, and the Company's actual results may differ materially from those expressed, projected or implied in or by the forward-looking statements.

You should not place undue reliance on these forward-looking statements, which speak only as of the date of this release. Forward-looking statements are subject to risks and uncertainties, many of which are difficult to predict and generally beyond our control, that could cause actual results to differ materially from those expressed, projected or implied in or by the forward-looking statements. These risks and uncertainties, among others, include: supply disruptions impacting us or our customers, such as the current shortage of semiconductor chips that has impacted original equipment manufacturer (“OEM”) customers and their suppliers, including us; commodity availability and pricing, and an inability to achieve expected levels of recoverability in commercial negotiations with customers concerning these costs; competitive challenges from existing and new competitors including OEM customers; the challenges associated with rapidly changing technologies, particularly as they relate to electric vehicles, and our ability to innovate in response; the difficulty in forecasting demand for electric vehicles and our electric vehicles revenue growth; disruptions in the global economy caused by wars, including the wars in Ukraine and the Middle East; the ability to identify targets and consummate acquisitions on acceptable terms; failure to realize the expected benefits of acquisitions on a timely basis; the possibility that our recently-completed tax-free spin-off of our former Fuel Systems and Aftermarket segments into a separate publicly traded company will not achieve its intended benefits for us; the failure to promptly and effectively integrate acquired businesses; the potential for unknown or inestimable liabilities relating to the acquired businesses; our dependence on automotive and truck production which is highly cyclical and subject to disruptions; our reliance on major OEM customers; the extent, duration, and impact of the recent and any future strikes involving some of our OEM customers and any actions such OEM customers take in response; fluctuations in interest rates and foreign currency exchange rates; our dependence on information systems; the uncertainty of the global economic environment; the outcome of existing or any future legal proceedings, including litigation with respect to various claims, or governmental investigations, including related litigation; future changes in laws and regulations, including, by way of example, taxes and tariffs, in the countries in which we operate; impacts from any potential future acquisition or disposition transactions; and the other risks noted in reports that we file with the Securities and Exchange Commission, including Item 1A, “Risk Factors” in our most recently filed Form 10-K and/or Quarterly Report on Form 10-Q. We do not undertake any obligation to update or announce publicly any updates to or revisions to any of the forward-looking statements in this release to reflect any change in our expectations or any change in events, conditions, circumstances, or assumptions underlying the statements.
