**BORGWARNER ENGINE TIMING CHAINS DRIVE**  
**WIDE VARIETY OF YAMAHA POWERSPORTS APPLICATIONS**

*BorgWarner's Silent Chain Technology Delivers*  
*Quiet, Dependable Performance*

Auburn Hills, Michigan, September 10, 2015 – BorgWarner supplies silent engine timing chains for a wide variety of Yamaha vehicles, including motorcycles, snowmobiles, all-terrain vehicles, recreational off-highway vehicles and personal watercrafts. Designed with state-of-the-art testing and simulation capabilities, BorgWarner's silent engine timing chains deliver low noise and proven durability. BorgWarner produces these chains in Nabari City and Aoyama, offering localized production for Yamaha's manufacturing facilities in Japan.

“Beginning in 1975 when BorgWarner introduced the world's first 6.35 mm silent chain for motorcycles, BorgWarner has built a strong reputation for best-in-class silent engine timing chains, providing premium performance for a variety of powersports applications,” said Joe Fadool, President and General Manager, BorgWarner Morse Systems. “For over 20 years, BorgWarner has supplied our advanced technologies to Yamaha. We are pleased to provide our proven engine timing chain for their latest engines.”

Engines for powersports applications vary widely from 110 cc commuter bikes sold in Asia to a 1000 cc Moto GP racing bikes and snowmobiles sold in Russia. Depending on each application's requirements, BorgWarner offers cost-effective engine timing chains designed for low friction and low mass. BorgWarner's silent timing chain also features an optimized link profile for high efficiency, strength and low noise, vibration and harshness.

**About BorgWarner**

BorgWarner Inc. (NYSE: BWA) is a product leader in highly engineered components and systems for powertrains around the world. Operating manufacturing and
